

**STRONG DRINKS GO
BUT BEER REMAINS**

Several hundred of the citizens of the city turned out Monday evening to attend the wake and funeral services of John Barleycorn, making the evening quite a memorable one in the history of the city, and keeping an extra force of bartenders busy until closing time at twelve-thirty. The funeral services, however, had been a trifle pre-arranged as the Tuesday morning papers brought the tidings to those who were able to make out the message, the news that it is still permissible to sell beer and wines under two and three-quarters percent.

None of the saloons in this city have re-opened but are generally awaiting the return of President Wilson hoping for a definite decision from him, or something more definite from the attorney-general. The general opinion seems to be that beer and light wines will be sold in Wisconsin, the beer being about the same percentage as has been in the past years or more.

Attorney General A. Mitchell Palmer, who is a Quaker and a "dry" man who there is no drier, announced Monday the determination that the department of Justice "shall do its utmost" to enforce wartime prohibition, which went into effect Tuesday.

The only mitigation of the rigor of enforcement will apply, temporarily at least to beer containing less than 2 1/2 per cent of alcohol, arrests for the sale of which will not be made pending a ruling by the courts as to whether such beer is intoxicating.

Likewise no arrests will be made, temporarily at least, for selling light wines containing not more than 2 1/2 per cent alcohol.

The case in which a ruling is expected will be argued in the federal district court in Baltimore, the government contending that beer of one-half of 1 per cent alcoholic content is intoxicating. If the court decides beer containing one-half of 1 per cent and less than 2 1/2 per cent of alcohol is intoxicating the department of justice will proceed to enforce the law as so interpreted to the letter.

If the court holds such beer non-intoxicating the attorney general will not interfere with its sale during the two months or more of the prospective life of the wartime prohibition act.

The attorney general indicated this policy in a statement he issued Monday. Assistant Attorney General Ripston, who is in charge of the enforcement machinery, stated that the arrests for selling beer of less than 2 1/2 per cent alcoholic content would not be made pending the court ruling.

Mr. Palmer made it clear, however, that any persons who may be arrested for selling beer, containing less than 2 1/2 per cent alcohol, will not be permitted to get up a plea of immunity in the event the courts hold such beer intoxicating.

The attorney general asserted that there would be rigid enforcement of the ban on whiskey and other distilled spirits, wine, and beer containing more than 2 1/2 per cent alcohol, of an intoxicating properties of which there is no controversy.

He instructed the district attorneys to issue warrants for the arrest of offenders concerning whose violation of the law evidence is furnished by the department's revenue agents, internal revenue agents, local officers, or private citizens, and that they are instructed to serve such warrants.

Mr. Palmer earnestly urged the cooperation of local police authorities and Mr. Ripston frankly stated that, without full cooperation of city, county, and village authorities, it would be impossible for the department of justice to enforce the law throughout the country. The attorney general requested that local police officers be instructed to arrest persons found selling liquor in violation of the act and take them before the nearest United States Commissioner. Mr. Ripston asked the cooperation of private citizens.

The attention of Mr. Ripston was called to the attention of saloonkeepers generally in some cities, notably New York, to continue selling. He replied that with the aid of the police force of New York or other cities in which wholesale violations may occur, the department of justice could round up the offenders.

**LESS MESSAGE TELLS
LAD OF FATHER'S STAIR**

Miss J. Falkland Lawndown is probably not the only proudest but so the most anxious young man in Grand Rapids today awaiting the news of the arrival of the R-24, the dirigible which left England early Wednesday morning on the first trans-Atlantic flight ever undertaken in an air craft of this type. Lieutenant Commander Zachary Lawndown, Falkland's father, is one of the commanders of the craft.

Being justly proud of having his father in command of the first dirigible across the Atlantic of this nature, Falkland is also proud of the wireless message which he received Wednesday morning from his father which reads, "Lieut. Commander Lawndown just as he is stepping aboard the R-24 sends greetings to his son and expects to be in the United States this week." The message was sent from London and the R-24 was to start Tuesday evening but the message was probably sent about the time the dirigible started on her long voyage.

Lieut. Commander Lawndown is well known in this city being a son-in-law of Mr. and Mrs. F. MacKinnon. Falkland, his son, has made his home here with his grandparents for some time.

Mrs. Mae Teas of Strong's Prairie was able to leave for her home Tuesday after being a patient at the hospital for the past two weeks.

**STRIKERS AND COMPANY
BOTH TAKE FIRM STAND**

The employees and Company of the Nekoosa-Edwards have reached no agreement on the strike, both retaining the firm stand taken by them at the outbreak of the trouble, the result being that the mill is still shut down and the men are still out of work. While from every outward appearance the strike will be a long drawn out affair, a matter of trying the strength of the company against the strength of the men, the under current of opinion has a more optimistic trend, and gives hope for an early settlement.

Conference by both the men and the company officials have continued and while the company will make no statement, the general feeling is that they are a little closer to an agreement than was the case a week ago.

In order that their side of the question may be definitely known without any mistakes, the union has issued the following notice of what their demands are:

1. Eight Hour Day.

2. Time and one-half pay for overtime (both tour and day workers).

3. Right to Collective Bargaining thru chosen representatives.

4. No discrimination against labor unions.

5. Right to approach any new employee relative to his joining the Union.

"The above demands have not been approved by the Nekoosa-Edwards Paper Co. The Nekoosa-Edwards government has over stated that these demands are unfair. The Federal government recognizes the right of labor to organize, it recommends collective bargaining. Our state legislature is now about to vote on a law legalizing eight hours as a standard day's work."

"We are ready and willing at all times to meet the officials of the Nekoosa-Edwards Paper Co., to effect a settlement when said Company is ready to concede our just and fair demands heretofore mentioned."

"We desire at this time to express our deepest appreciations for the kind and generous offerings of assistance extended by the numerous merchants and business men of Wood County."

**STEINBERG'S TO REBUILD
AND REFINISH STORE**

Mrs. Sarah Steinberg has let the contract for a complete new set of fixtures and furnishings for their store on the east side and within the coming month expect to rebuild and refinish their establishment into the most modern and up-to-date ladies clothing and ready-to-wear parlors in the city.

The entire front of the store will be torn out, according to Mrs. Steinberg, a new front built in and the interior of the store remodeled. There will be a center entrance in the front with two large display windows, attractively arranged, one on either side of the entrance. The interior will be fitted up with modern and attractive fixtures, the idea being taken from many of the most exclusive city stores where both appearance and convenience in displaying goods is taken into consideration.

Previous to making these changes they had intended to close out their lines of goods with the exception of the ready-to-wear department holding a sale for that purpose which will be announced next week.

**LOCAL YOUNG LADY WEDS
CHICAGO MAN THURSDAY**

Miss Anna Elizabeth Bauer of this city and Alfred G. LaBarge, of Chicago, were married this morning at 9:30 at St. Peter and Paul church, Rev. Wm. Reding performing the ceremony.

The bride was attended by Mrs. Ben Mauel and Mrs. P. J. Zehner, sisters of the bride, as bridesmaids, and Miss Lenora Baker, also a sister, as maid of honor. The best man was Joseph LaBarge. The bride was very prettily dressed in white georgette crepe, wearing a picture hat to match. She carried a beautiful bouquet of American Beauty roses and baby's breaths. The bridesmaids wore a very attractive appearance in flesh colored georgette with tails to match and wore corsage bouquets of American Beauty roses. Little Dorothy Zehner, a niece of the bride was the flower girl while Rowland Bauer, a nephew of the bride, was ring bearer. The ceremony was a very impressive one, the bride having been given away by her father, F. S. Bauer.

The church had been attractively decorated for the wedding in roses and ferns, the general decorating scheme having been carried out in the home as well, where a mass of roses, sweet peas and a general decoration scheme of pink and white making the affair a very pretty one. A wedding dinner and supper will be served to the wedding party at the home of the bride's parents at 7 o'clock, where a large number of friends will gather to extend their congratulations and best wishes.

The bride is one of the well known young ladies of this city, being the daughter of Mr. and Mrs. F. S. Bauer who have resided on the Sunnyside farm on the Union road for some time. Miss Bauer has made her home with her parents and has a host of friends in that community and in this city to congratulate her. The groom is the son of Mr. and Mrs. C. LaBarge of this city and is a progressive young man with every prospect of a brilliant future. He holds an attractive position in Chicago at the present time where he will take his bride to make their future home.

The young couple leave Friday for Michigan where they will spend their honeymoon and will be at home in Chicago at 3116 West Forty-First place after August 1st. The Tribune and a host of other friends will unite in wishing the young couple complete happiness.

**TAILOR AND AUTO DEALER
AIR TROUBLES IN COURT**

H. Leloff, the tailor, and Ed. Garber, the automobile broker, held a heated argument in Judge Getts court Monday morning, a follow up to the little argument which had occurred between the men on Sunday.

Mr. Garber appeared before the judge Monday swearing out a warrant for the arrest of H. Leloff, giving as his cause abusive and obscene language. Garber stated in his warrant that Leloff had called him a New York thief, speaking German when he used the term. Ed. understood German, however, and took offense at the title. Mr. Garber had a perfect alibi to the accusation and the result was that Leloff did not want to be tried but pleaded guilty to Garber's charge and paid a fine of \$3 and costs, amounting to \$7.08.

However, it seems that Mr. Garber had also been making some accusations during the argument and H. Leloff turned around and swore out a warrant for Garber's arrest, charging that Garber called Leloff a robber. Garber denied this in court and the case was adjourned a week.

Prin. L. J. Duett of Hilbert Junction arrived in the city Monday for a visit with his brother, Sheriff Cliff Duett. Mr. Duett is principal of the Hilbert Junction schools.

George Forand sold the Timm homestead on Eighth St. south the past week to Jerry Doughty of Rudolph. The place was owned by Mrs. Will Hayes of Wausau and lands of house, barn and five acres of land. Consideration \$2500. Mr. and Mrs. Doughty expect to move on the place this fall.

Charles Frison, one of the oldest residents of this section, passed away at his home on Thirteenth street Sunday evening after several months illness, deceased being eight-two years of age at the time of his death. Mr. Frison was born in Canada in 1826 and spent the early years of his life in the northern country. Later he moved to this country and settled on a farm on the Plover road, where he spent many years of his life and made a wide circle of friends. In his declining years Mr. Frison moved to this city where he has made his home for some time.

He is survived by his wife and six children, the children being: George Frison, Grand Rapids, Charles, Arlin, Frank, of Wales, Wis., Mrs. Jos. Snyder, Mrs. Len. Stusser and Severe Frison, all of this city.

The funeral services were held Monday at 8:30 from the house and 9:30 from St. Peter & Paul's church. Rev. Wm. Reding officiating. Burial was made in Calvary cemetery.

OBJECTED TO WATER DIET

Miss Laura Marceau paid a fine of \$5 in Judge Pominville's court Monday following an arrest Friday evening made by Officer Berard, who the young lady had dined with a man of water the previous evening as the officer was enjoying the comforts of the swing in front of the Dixon hotel annex. The trouble occurred at about eleven-thirty Friday evening. The girls who were in the annex had been conversing for several months past from wounds received in action at Belleau Wood while in the Sixth Regiment of Marines. Steve has been recommended for vocational training at the University and expects to leave this fall for Madison to take up agriculture and irrigation.

The Chicago Herald-Examiner says the following about Steve, which relates some of the experiences he went thru since leaving here two years ago to enlist in the marine corps at St. Paul:

"Class the marines with the ease for having many lives. But when a cat is finally killed and buried the last word generally been spoken as 'as Mister Cal is concerned; not so with a marine.'"

"Bernard A. Schwelke, private, eighth-third company, Sixth Regiment, U. S. M. C., was killed by an enemy high explosive shell while attacking Belleau Woods, France, June 8, 1918. The same day he was buried on the battlefield and the position of his grave recorded. All of this is down in black and white on the casualties. A gold star was hung out for him in Grand Rapids, Wis., and memorial services were held."

"Bernard A. Schwelke, the same Bernard, was wounded three months after he had been killed and buried. He received a gunshot wound in the knee at St. Mihiel. That is on his health record record, also."

"Yesterday, Schwelke, killed, wounded and convalescent, applied to the Marine Corps Office, 619 S. State St., for his discharge papers. He was headed toward Grand Rapids, Wis., to prove to the town that he isn't dead."

Harry Abrams, of Port Edwards was arrested Saturday and brought into Judge Pominville's court charged with adultery, the complaint being Nick Jaworski, father of Martha Jaworski, a girl under age. The case was adjourned until July 14th, the defendant being released on \$400 bonds. Dist. Attorney Frank W. Calkins appeared for the state while Attorney Charles E. Briere appeared for the defendant.

About the closest thing to a Fourth of July celebration for Grand Rapids this year will occur at the pavilion where the company have announced dancing for the afternoon and evening with a picnic in connection with the affair. As there will be nothing doing in the city during the day there will doubtless be a large crowd at the Moccasin creek resort.

About the closest thing to a Fourth of July celebration for Grand Rapids this year will occur at the pavilion where the company have announced dancing for the afternoon and evening with a picnic in connection with the affair. As there will be nothing doing in the city during the day there will doubtless be a large crowd at the Moccasin creek resort.

George Forand sold the Timm homestead on Eighth St. south the past week to Jerry Doughty of Rudolph. The place was owned by Mrs. Will Hayes of Wausau and lands of house, barn and five acres of land. Consideration \$2500. Mr. and Mrs. Doughty expect to move on the place this fall.

Charles Frison, one of the oldest residents of this section, passed away at his home on Thirteenth street Sunday evening after several months illness, deceased being eight-two years of age at the time of his death. Mr. Frison was born in Canada in 1826 and spent the early years of his life in the northern country. Later he moved to this country and settled on a farm on the Plover road, where he spent many years of his life and made a wide circle of friends. In his declining years Mr. Frison moved to this city where he has made his home for some time.

He is survived by his wife and six children, the children being

STRONG DRINKS GO BUT BEER REMAINS

Several hundred of the citizens of the city turned out Monday evening to attend the wake and funeral services of John Barleycorn, making the evening quite a memorable one in the history of the city, and keeping an extra force of bartenders busy until closing time at twelve-thirty. The funeral services, however, had been a little pre-arranged as the Tuesday morning papers brought the news that those who were able to make out the message, the news that it is still permissible to sell beer and wines under two and three-quarters percent.

None of the saloons in this city have re-opened but are generally awaiting the return of President Wilson hoping for a definite decision from him, or something more definite from the attorney-general. The general opinion seems to be that beer and light wines will be sold at the same percentage as has been made in the past year or more.

Attorney General A. Mitchell Palmer, who is a Quaker and a "dry" man who there is no drier, announced Monday the determination that the department of Justice "shall do its utmost" to enforce wartime prohibition, which went into effect Tuesday.

The only mitigation of the rigor of enforcement will apply, temporarily at least to beer containing less than 2 3/4 per cent of alcohol, arrests for the sale of which will not be made pending a ruling by the courts as to whether such beer is intoxicating.

Likewise no arrests will be made, temporarily at least, for selling light wines containing not more than 2 3/4 per cent alcohol.

The case in which a ruling is sought will be argued in the federal district court at Baltimore, the government contending that beer of one-half of 1 per cent alcoholic content is intoxicating. If the court decides beer containing one-half of 1 percent and less than 2 3/4 per cent of alcohol is intoxicating the department of justice will proceed to enforce the law as so interpreted to the letter.

If the court holds such beer non-intoxicating the attorney general will do nothing with its sale during the next months or more of the prospective life of the wartime prohibition act.

The attorney general indicated this policy in a statement he issued Monday. Assistant Attorney General Peterson, who is in charge of the enforcement machinery, stated that arrests for selling beer of less than 2 3/4 per cent alcoholic content would not be made pending the court ruling.

Mr. Palmer made it clear, however, that any persons who may be arrested for selling beer, which contains less than 2 3/4 per cent alcohol, will not be permitted to set up a plea of immunity in the event the courts hold such beer intoxicating.

The attorney general asserted that there would be rigid enforcement of the ban on whiskey and other distilled spirits, wine, and beer containing more than 2 3/4 per cent alcohol, or of intoxicating properties of which are in no controversy.

He instructed the district attorneys to issue warrants for the arrests of offenders concerning whose violation of the law evidence is furnished by the department's bureau of investigation, internal revenue agents, local officers, or private citizens and their deputies are instructed to serve such warrants.

Mr. Palmer earnestly urged the cooperation of local police authorities in this connection. He frankly stated that without full cooperation of city, county, and village authorities, it could be impossible for the department of justice to enforce the law throughout the country. The attorney general requested that local police officers be instructed to arrest persons found selling liquor in violation of the act and take them before the nearest United States Commissioner. Mr. Peterson asked the cooperation of police officers in the enforcement of the law.

Being justly proud of having his name in the command of the first ship to start Tuesday evening, the message was probably sent about the time the big dirigible started on her long voyage.

Lieut. Commander Lawndowne is well known in this city being a son-in-law of Mr. and Mrs. F. MacKinnon. Falkland, his son has made his home here with his grandparents for some time.

Mrs. Mae Trar of Stevens Point is able to leave for her home Tuesday after being a patient at the hospital for the past two weeks.

STRIKERS AND COMPANY BOTH TAKE FIRM STAND

The employees and Company officials of the Nekosoa-Edwards have reached no agreement on the strike, both retaining the firm stand taken by them at the outbreak of the trouble, the result being that the mill is still shut down and the men are still out of work. While from every outward appearance the strike will be a long drawn out affair, a matter of trying the strength of the company against the strength of the men, the under current of opinion has a more optimistic trend, and gives hope for an early settlement. Conference by both the men and the company officials have continued and while the company will make no statement, the general feeling is that they are a little closer to an agreement than was the case a week ago.

In order that their side of the question may be definitely known without any mistakes, the union has issued the following notice of what their demands are:

1. Eight Hour Day.
2. Time and one-half pay for overtime (both tour and day workers).
3. Right to Collective Bargaining through chosen representatives.
4. No discrimination against Labor Unions.
5. Right to approach any new employee relative to his joining the Union.

"The above demands have not been approved by the Nekosoa-Edwards Paper Co."

"No United States government arbitrator has ever stated that these demands are unfair. The Federal government recognizes the right of labor to unionism, the right to collective bargaining. Our state legislature is now about to vote on a law legalizing eight hours as a standard day's work."

"We are ready and willing at all times to meet the officials of the Nekosoa-Edwards Paper Co. to effect a settlement when said Company is ready to concede our just and fair demands heretofore mentioned."

"We desire at this time to express our deepest appreciation for the kind and generous offerings of assistance extended by the numerous merchants and business men of Wood County."

STEINBERG'S TO REBUILD AND REFURNISH STORE

Mrs. Sarah Steinberg has let the contract for a complete new set of fixtures and furnishings for their store on the east side and within the coming month expect to rebuild and refurnish their establishment in the modern and up-to-date ladies clothing and ready-to-wear parlors in the city.

The entire front of the store will be torn out, according to Mrs. Steinberg, a new front built in and the interior of the store remodeled. There will be a center entrance in the front with two large display windows, attractively arranged, one on either side of the entrance. The interior will be fitted up with modern and attractive fixtures, the idea being taken from many of the most exclusive city stores where both appearance and convenience in displaying goods is taken into consideration.

Previous to making these changes the firm intend to close out their lines of goods with the exception of the ladies ready-to-wear department holding a sale for that purpose which will be announced next week.

LOCAL YOUNG LADY WEDS CHICAGO MAN THURSDAY

Miss Anna Elizabeth Bauer of this city and Alfred C. Borge, of Chicago, were married the morning of 9:30 at St. Peter and Paul church, Rev. Wm. Reding performing the ceremony.

The bride was attended by Mrs. Mausel and Mrs. P. J. Zehren, sisters of the bride, as bridesmaids, and Miss Lenora Bauer, also a sister, as maid of honor. The best man was Joseph LaBarge. The bride was very prettily dressed in white georgette crepe, wearing a picture hat to match. She carried a beautiful bouquet of American Beauty roses and baby wreaths. The bridesmaids made a very attractive appearance in flesh colored georgette with hats to match and wore corsage bouquets of American Beauty roses. Little Dorothy Zehren, a niece of the bride was the flower girl while Rowland Bauer, a nephew of the bride was the ring bearer. The sermon was a very impressive one, the bride having been given away by her father, F. S. Bauer.

The church had been attractively decorated for the wedding in roses and ferns, the general decorating scheme having been carried out in the home as well, where a moss of roses, sweet peas and a general decoration scheme of pink and white making the affair a very pretty one. A wedding dinner and supper will be served to the wedding party at the home of the bride's parents up river, where a large number of friends will gather to extend their congratulations and best wishes.

The bride is one of the well known young ladies of this city, being the daughter of Mr. and Mrs. F. S. Bauer who have resided on the Sunnyside Farm on the Biron road for some time. Miss Bauer has made her home with her parents and has a host of friends in that community and in this city to congratulate her.

The groom is the son of Mr. and Mrs. C. LaBarge of this city and is a progressive young man with every prospect of a brilliant future. He holds an attractive position in Chicago at the present time where he will take his bride to make their future home.

The young couple leave Friday for Michigan where they will spend their honeymoon and will be at home in Chicago at 2116 West Forty-First Place after August 1st. The Tribune wishes the young couple complete happiness.

PAVING OPERATIONS GETTING UNDER WAY

The arrival of the city's new concrete mixer on Tuesday brought assurance from City Engineer A. T. Thompson that the paving projects which have been under construction for several weeks past will take on a definite aspect within the next few days and state which have been torn up will soon be completed.

The pouring of concrete on Grand Avenue was started on Wednesday when the big mixer was put into operation and the initial work of getting this west side main street back into use was started. According to Mr. Thompson it will require about six working days to pour the concrete on Grand Avenue, meaning that should favorable weather conditions prevail July will see the street complete and open to traffic.

"Everything depends upon the weather conditions now," the City Engineer stated on Tuesday, "all the preliminary work being in such shape that we can go right ahead and pour in the concrete for the foundation of the brick paving."

Allowing for a little rainy weather during the coming week the work of completing the concrete foundation will be completed by the end of next week. This concrete will be permitted to dry a matter of two or three days, according to Engineer Thompson after which the brick will be laid immediately, the work of putting on a sand cushion requiring but little time. This means that within about three weeks the street will again be open to traffic, as it is not necessary to dry out the concrete any further after the brick work has been completed.

The laying of the brick, it is estimated, will take about six days. The city officials are assured that everything will be in complete readiness by the latter part of July when the Home Coming and Soldier Welcome takes place in Grand Rapids. Other streets will be completed as far as possible and the work will be rushed along now that the concrete mixer has arrived.

Following the work on Grand Avenue the mixer will be taken to Third avenue, where the grading has been completed on four blocks of this street, preparatory for the paving. On this street it will require about eight days to complete the laying of the concrete and the surfacing, it is estimated, as the work of smoothing up the traveling surface will require a little time. One block of concrete paving on Fourth avenue south in front of the Ebbe garage is scheduled for completion after the Third avenue work is completed, cleaning up the paving which will be done this season on the west side of the river.

Work on the east side, paving Oak street comes next, according to the City Engineer, following which Fifth and Lincoln and Eighth streets will be completed. This will complete the paving work for the season and in all probability will mean that the season will be at about an end.

The paving of the new machine is about six hundred yards of concrete a day and an expert has arrived from the company's headquarters to take care of the machine until the local men become a little more familiar with the work. Later one of the Grand Rapids crew will be taught how to handle the mixer.

NON-PARTISAN LEAGUE

Wausau Pilot.—The Non-Partisan League is gaining a strong foothold in Marathon county. Workers of prominence have been engaged in obtaining memberships for the past six months, until now it has gained a formidable following. One farmer of the town of Wausau told a Pilot reporter that every farmer of the town of Wausau has a membership with the exception of three. The Non-Partisan league is firmly entrenched in North Dakota in which state the Non-Partisan league has full control of all the state offices with Lynn J. Frazier as governor.

The league embodies the principle of state ownership. It is working to the end that the state shall own its banks, its flouring mills, and elevators; its insurance, life and real estate companies, with a view of giving the poorest and best protection against poverty from industrial accidents, crippling or killing of breadwinners.

It seeks to regulate the railroads, telephone, telegraph, water powers, etc.

A. C. Townley, president of the league, it is said by the organizers in this county, will come here to deliver an address between now and fall.

TAILOR AND AUTO DEALER AIR TROUBLES IN COURT

H. Leloff, the tailor, and Ed. Garber, the automobile broker, held a heated affair in Judge Getts court Monday morning as a follow up to a little argument which had occurred between the men on Sunday.

Mr. Garber appeared before Judge Monday swearing out a warrant for the arrest of H. Leloff, giving as his cause, abusive and obscene language. Garber stated in his warrant that Leloff had called him a New York thief, speaking German when he used the term. Ed. understood German, however, and took offense at the title. Mr. Garber had a perfect alibi to the accusation and the result was that Leloff did not wait to be tried but pleaded guilty to Garber's charge and paid a fine of \$1 and costs, amounting to \$7.08.

However, it seems that Mr. Garber had also been making some accusations during the argument and H. Leloff turned around and swore out a warrant for Garber's arrest, charging that Garber called Leloff a robber. Garber denied this in court and the case was adjourned a week.

Prin. L. J. Bluet of Hilbert Junction arrived in the city Monday for a visit with his brother, Sheriff Chas. Bluet. Mr. Bluet is principal of the Hilbert Junction schools.

LOCAL YOUNG LADY WEDS SOLDIER FROM MARSHFIELD

Miss Viola Hahn, of this city, and John Parba, of Marshfield, were united in marriage at the West Side Lutheran church in this city Wednesday afternoon at three o'clock, Rev. Thurow performing the ceremony.

The bride was attended by Miss Martha Witt and Hilda Parba, of Marshfield, as bridesmaid and maid of honor, while Wm. Parba and Walter Hahn were the groomsmen. The bride was very attractively dressed in white satin and veil, and carried a bouquet of white roses. The bridesmaids were gowned in pink and blue satin, the entire affair being a very pretty one.

Following the ceremony the party enjoyed a wedding supper at the home of the bride's parents after which the evening was spent in a social way, a number of the friends of the young people gathering to extend their congratulations and best wishes. The home had been very prettily decorated in white and heavy drapery material in bells and holly leaves and the gathering was made an attractive one for the newly weds and their friends.

Miss Hahn is well known in this city and community, being the daughter of Mr. and Mrs. Albert Hahn of Sigel, and has a host of friends out there. She was employed at the Northington laundry in Grand Rapids for a year. The groom is the son of Mr. and Mrs. John A. Parba and is said to be an industrious young man with a fine habit. He has recently returned from France where he saw action with the Thirty-Third Division. Both of the young people have the best wishes of the Tribune and a host of friends in this county for a happy and prosperous wedded life. They will make their future home at Muskegon, Michigan, where the groom holds a position as motorman.

OLD RESIDENT DEAD

Charles Frieau, one of the oldest residents of this section, passed away at his home on Thirteenth street Sunday evening after several months illness, deceased being eight-two years of age at the time of his death. Mr. Frieau was born in Canada in 1836 and spent the early years of his life in the northern country. Later he moved to this country and settled on a farm on the Beaver Road where he spent many years of his life and made a wide circle of friends. In his declining years Mr. Frieau moved to this city where he has made his home for some time.

He is survived by his wife and six children, the children being: George Frieau, Grand Rapids, Charles, of Appleton, Frank, of Wales, Wis.; Mrs. J. Snyder, Mrs. Len. Slosser and Severa Frieau, all of this city.

The funeral services were held Monday at 9:30 from the home at 9:30 from St. Peter & Paul's church, Rev. Wm. Reding officiating. Burial was made in Calvary cemetery.

OBJECTED TO WATER DIET

Miss Laura Marceau paid a fine of \$5 in Judge Pominville's court Monday following an arrest Friday evening made by Officer Berard, who the young lady had drenched with a pan of water the previous evening as the officer was endeavoring to remove the swing in front of the Dixon hotel annex. The trouble occurred at about eleven-thirty Friday evening. The girls who room in the annex had been troubled at night by people sitting in the swing and talking until late hours, preventing them from sleeping. The girls had decided to rid themselves of the visitors on Friday evening and Miss Marceau slipped out of the house quietly and threw a pan of water on the occupants of the swing. It happened that Officer Berard was one of the occupants, he complaining and causing the arrest.

RUDOLPH COUPLE MARRIED

Miss Mary Zimmerman and Gustave Karsin, Rudolph young people, were married Monday morning at about 10 o'clock at St. Peter & Paul church, Rev. Wm. Reding performing the ceremony. Miss Rosa Zimmerman was the bridesmaid while Albert Karsin was the groomsmen. Following the ceremony the wedding party went to the home of the bride's parents in Rudolph where a number of friends had gathered to honor the occasion. A wedding breakfast was served to a number of friends following which a social time was enjoyed. Mr. and Mrs. Karsin are well known in this city and in Rudolph and their married life will be the best wishes of the Tribune and a host of other friends.

GIVING FOURTH DANCE

Company K have announced that they will hold one of their popular dances at the Armory Friday evening, the event being in honor of the Fourth of July. The Elks Jazz orchestra are to furnish the music and the dance promises to be a popular one.

Mr. and Mrs. Ernest Knipple of Stevens Point entertained a party of friends on Sunday in honor of Mrs. Knipple's 65th birthday. Henry Gussel of Stevens Point was one of the guests. The afternoon was spent in a very pleasant manner, dinner and supper being served for the guests.

Ed. Pominville and John Jung turned the latter part of last week from Manitowish where they had attended the Elks state convention and from Mooseheart, Ill., where they had attended the Moose National Convention. They report good roads and a very pleasant trip.

George Forrand sold the Timm homestead on Eighth St. south the past week to Jerry Doughty of Rudolph. The place was owned by Mrs. Will Hayes of Wausau and consists of house, barn and five acres of land. Consideration \$2500. Mr. and Mrs. Doughty expect to move on the place this fall.

OPEN CAMPAIGN FOR NEXT YEARS PAVING

With the paving season for 1919 hardly well under way forty-two of the enthusiastic citizens on Fourth avenue started the ball rolling for next years program Tuesday evening at the Council meeting when they filed a petition asking that Fourth avenue north, from Grand Avenue to the St. Paul right-of-way, be paved with concrete. The petition did not state when they wanted the work done but Mayor Briere explained to the council that the property owners there did not expect the work until 1920, but saw the advantages of paving and wanted to be on the ground early to be assured of getting their street paved next season.

Conditions will be exceptionally good for paving this street next year as Third avenue will be paved to the Dr. Boorman corner, and will take care of the traffic which goes out to the communities north of this city. With Fourth avenue paved to the St. Paul right-of-way it will mean that the street leading from Grand Avenue will be in excellent shape to handle the heavy traffic which travels over them.

The proposition of digging fifteen hundred feet of sewer on Eighteenth avenue at an expense of \$5,000 was discussed at some length by the council men, it being brought up when Engineer Thompson brought in a report on the estimated cost of putting in this project.

According to the report of the Engineer there is considerable rock in that section of the city and the unusual expense is due to the necessity of removing this rock. There are only three houses in the fifteen hundred feet served and whether or not it was advisable to spend this amount for the purpose of serving three patrons was some question.

Alderman Whitrook spoke favorably on the matter, urging the council to put in the sewer. He explained how people who had formerly had wells in that section had been unable to get water since the drainage had been improved out there and how they were in need of city water and sewer. Mr. Whitrook urged the installation on the grounds of encouraging building, stating that many people hesitated about building on a street where there was no sewer and water. He outlined the advantage of keeping the homes together in the city instead of encouraging the scattering of the building as has been the habit in the past.

Alderman Jackson explained that he favored putting in sewer and water wherever possible but went on to say that there were already petitions in which would keep the city busy the rest of this season and a good share of next putting in sewer, and that some of these projects must wait.

Upon a unanimous vote of the council the matter was postponed until some later meeting.

After allowing a number of bills the council adjourned after being in session about forty minutes.

WOUNDED, KILLED, BURIED—ARRIVED HOME SATURDAY

Bernard (Steve) Schwabke, arrived home Saturday, discharged from the Base Hospital, Great Lakes, where he has been convalescing for several months past from wounds received in action at Belleau Wood while in the Sixth Regiment of Marines. Steve has been recommended for vocational training at the University and expects to leave this fall for Madison to take up agriculture and irrigation.

The Chicago Herald-Examiner says that following about Steve, which relates how his experiences he went through since leaving home two years ago to enlist in the marine corps at St. Paul:

"Class the marines with the cats for having many lives. But when a cat is finally killed and buried the last word generally been spoken as 'Mister Cat is concerned; not so with a marine.'

"Bernard A. Schwabke, private, eighty-third company, Sixth Regiment, U. S. M. C., was killed by an enemy high explosive shell while attacking Belleau Woods, France, June 8, 1918. The same day he was buried on the battlefield and the position of his grave recorded. All of this is down in black and white on his health record. He was listed in the casualties. A gold star was hung out for him in Grand Rapids, Wis., and memorial services were held."

Bernard A. Schwabke, the same Bernard who was three months after he had been killed and buried. He received a gunshot wound in the knee at St. Mihiel. That is on his health record record, also.

"Yesterday, Schwabke, killed, wounded and convalescent, applied to the Marine Corps office, 619 S. State St., for his discharge papers. He was headed toward Grand Rapids, Wis., to prove to the town that he isn't dead."

ARRESTED ON SERIOUS CHARGE

Harry Abrams, of Port Edwards was arrested Saturday and brought into Judge Pominville's court charged with adultery, the complaint being filed Jaworski, father of Martha Jaworski, a girl under age. The case was adjourned until July 14th, the defendant being released on \$500 bonds. Dist. Attorney Frank W. Calkins appeared for the state while Attorney Charles E. Briere appeared for the defendant.

CELEBRATE AT PAVILION

About the closest thing to a Fourth of July celebration for Grand Rapids this year will occur at the pavilion where the company have announced dancing for the afternoon and evening with a picnic in connection with the affair. As there will be nothing doing in the city during the day there will doubtless be a large crowd at the Moccasin creek resort.

THOMAS HOWE TAKES PORT EDWARDS GIRL FOR BRIDE

Miss Anne Cahill, one of the well known young ladies of Port Edwards, and Thomas F. Howe, one of the young men who went from this city with Troop G, were married at Nekosoa Saturday morning at nine o'clock, Rev. Feldman performing the ceremony in the Catholic church there.

Miss Florence Brady, of Wausau, a cousin of the bride, acted as bridesmaid while Ervin Hinkley, of Port Edwards was the best man. The bride was very prettily dressed in white georgette crepe and carried a shower bouquet of white roses and sweet peas. The bridesmaid was becomingly gowned in pink organdie and carried a bouquet of pink roses. Following the ceremony the wedding party went to the bride's home in Port Edwards, where a wedding dinner was served the young people and a few friends and relatives. The home had been very prettily decorated for the affair in pink and white flowers on a background of green ferns and plants, making it very attractive.

The bride is one of the popular young ladies of Port Edwards, having made her home in that village for many years. She has completed her education at the Nekosoa-Edwards Paper Co. for some time past and has a wide circle of friends to wish her happiness. Mr. Howe is well known in this city and county, having attended the public schools here and been one of the progressive men of the community. He enlisted with Troop G of this city and has been in France for the past two years. Both Mr. and Mrs. Howe have a host of friends to unite with the Tribune in wishing them a very successful and happy married life.

Mrs. Howard and daughter, Lucille of this city were among the guests at the wedding.

PLENTY OF WORK FOR MEN COUNTY AGENT CLARK SAYS

Men who are inclined to work need not worry about being out of jobs, County Agent W. W. Clark states, as there is plenty of jobs waiting for any industrious man on the farms of Wood county. The wages are good, too, the County Agent says, and the farmers of the county are anxious to get help to put up the big hay and grain crops which they have grown this year.

Men who are out of a job on account of the strike can readily find a position on a farm if they are inclined to work. The work is comparatively hard but pays proportionately good wages and is out of doors, a feature which many of the positions in the mills cannot offer.

Mr. Clark has opened up a medium between the farmers and the men who are seeking work and applications to him for positions will be given his attention. While men experienced in farm work are especially desirable, others who are willing to work can be taught positions and are needed in the fields.

RED CROSS NURSE BACK

Mrs. Mae Franklin, formerly in charge of the Riverview hospital in this city, who has been serving as a Red Cross Nurse in France and Germany, arrived home Sunday and is a guest at the Wagner and Owen homes. Mrs. Franklin arrived in France after the armistice was signed going directly to Coblenz. She served there for a number of months after which she was transferred to Paris and given a two weeks furlough, during which she traveled over eastern and southern France. She embarked from France June 11th arriving in New York about two weeks ago. Mrs. Franklin has not been discharged but expects her discharge within a month.

PITTSVILLE COUPLE MARRIED

Miss Florence Lust and Henry Hauser, both well known young people of Pittsville, were married at the parsonage of the Congregational Church Saturday evening, Rev. Noel J. Breed performing the ceremony. They were attended by Mr. and Mrs. John Hauser. The wedding was a quiet one only the immediate relatives witnessing it. Mr. and Mrs. Hauser will make their home in this city.

WILL OPEN NEW STORE

H. Weisberg, Eight avenue, has rented the store building on First St. next to the Cohen building from F. J. Wood, and will open a dry goods store in the building about July 10th. Mr. Weisberg is getting a new set of fixtures made and remodeling the interior of the building.

LOCAL BOYS ENLIST

Russell Peckham and Floyd Delamarter enlisted in the army during the past week, having been signed up by Lieut. Barstow and his recruiting detail who arrived in the city last week. Russell enlisted for three years in the air service while Floyd went into the cavalry for three years. Both of the young men left Tuesday for camp.

SALOON KEEPER FINED

Nick Thomas, who operates a saloon on the Kellner road was brought into Judge Pominville's court Monday morning charged with keeping his saloon open on Sunday, the complaint being made by District Attorney Calkins. Mr. Thomas paid a fine of \$5 and costs amounting to \$12.50.

Chas. J. Blomquist of the town of Sigel was among the business callers at the Tribune office on Wednesday. Mr. Blomquist had just returned from Rockford, Ill., where he had been to attend the funeral of his father, who died there on Saturday at the age of 77 years. The elder Mr. Blomquist formerly made his home in the town of Sigel with his son, but has been living at Rockford for eight years past.

NEW MINIMUM WAGE HITS LOCAL STORES

Merchandising problems which have been faced by local stores, factories, laundries and other concerns employing female labor took on a minor aspect on Monday when the state industrial commission issued an order setting the minimum wage for women at 22 cents an hour. According to local merchants and other employers of girls this order will completely upset the present business system, and in all probability will result in a general shakeup of the clerking system of the city. Inefficiency will be stopped, the merchants generally agree, and the result is that clerks who have not been bearing the one hundred percent mark in efficiency will probably have to give way to the more ambitious employee.

The order provides for a minimum wage of not less than 22 cents per hour for experienced women and minor employees who are over 17 years of age.

It provides for a learning period of six months in all industries, during the first three months of which the learners must be paid not less than 18 cents per hour, and during the second three months of which they must be paid not less than 20 cents per hour.

All minors under 16 years of age must be paid not less than 18 cents per hour and minors between 15 and 17 years of age must be paid not less than 20 cents per hour, provided they have been employed in the industry for at least three months and 18 cents if they have not been employed for this length of time.

The order, however, also provides that children producing the same output as employees in a higher wage classification shall be paid not less than the minimum wage rate for such class. The number of employees in any establishment who receives wages below 22 per cents per hour, but not including the indentured apprentices, shall not exceed 25 per cent of the total women and minors normally employed.

The order also provides that no learning period is recognized for any seasonal industry which operates for only a few months during the year. Where board or lodging is furnished by the employer as part payment of wages an allowance is made therefor of not more than \$4.50 per week for board and of \$2 per week for lodging.

The order further provides that where payment of wages is made up on a piece basis or system other than time rate, the actual wage shall not be less than the time rates prescribed in the order.

This order of the industrial commission is adopted in compliance with the provisions of the minimum wage act of 1913. This law provides that employers shall pay to all women and minor employees a living wage, and makes it the duty of the industrial commission to determine what is a living wage for women and minor employees. The order becomes effective August 1, 1919.

The new wage scale will mean a general increase in wages, the merchants agree, and in several cases will mean that the girls will earn more and at the same time will work shorter hours. Some of the merchants and others who are employed female labor are planning on having their help work only in the afternoon.

The new law is not unreasonable for girls who have had enough experience to be of any value, it is generally agreed, however, a girl starting in a store is green and is of very little value to her employer.

The new order requires that she be paid eighteen cent an hour during her learning period, a price the merchants state is much higher than they are really worth. The girls who have had sufficient experience in their work to be familiar and capable in it, are generally earning more than the minimum requires.

While the new order means an increase of wages from one thousand dollars a year in many of the institutions to several thousand in the stores who employ a large number of girls, steps are already being taken by the employers to offset this great increase as much as possible.

One of the employers stated that he expected that young men in many cases could fill the position held by two girls and in this way it would not only solve the labor problem among the young men but would also offset the increase necessary under the new order.

MEEHAN SOLDIER HONORED FOR BRAVERY IN FRANCE

Clayton Slack, son of Mr. and Mrs. Percy Slack, former residents of Meehan but who now resides in Washburn county, has been awarded the Congressional Medal of Honor, the Croix de Guerre and the medallion in recognition of bravery on the battlefields of France. Mr. Slack is given credit for capturing German gas and machine gunners, and for turning two machine guns which the Germans had been firing upon the Americans with upon the foe, facilitating the advance of the American forces. Slack was a member of the Thirty-third division and the word of honors which have been bestowed upon him came from General Bell, commander of this division.

PAVING GOING NICELY

The paving on the South Side road is going along rapidly, contractor Bossert stating that the concrete work will be completed by Tuesday or Wednesday of next week. The concrete will be laid on the road near the South Side will be installed and the road will be ready to travel. This will open up the longest stretch of concrete paving in this vicinity there being a continuous stretch from the Packing Plant road thru the village of Port Edwards.

WILL DIRECT NEW POWER LINE TO STEVENS POINT

The Consolidated Water Power & Paper Co. expect to start work within the next week or two on a new power line and the mill in this city and the mill in Stevens Point. The work will include some rebuilding on the present line between this city and Biron and will mean the erection of an entirely new line on from Biron to Stevens Point. The estimated cost of the new project will run in the neighborhood of \$50,000 and will keep a good sized crew of electricians and laborers at work for some time this summer.

According to the plan, the line of the Consolidated mill, the line will probably cross the river at Biron and be run up the west and north side of the river from there to Stevens Point, where it will be connected with the plant in that city. The construction will be done by the company, their own men being thoroughly familiar with the work and considered capable of doing as good if not better than could be secured if the matter were let to a contractor.

The advantage of having two mills connected with a power line, the company officials, who state that the power which is very often unsteady, will be steadied up considerably to the advantage of both mills. There are often times when one mill will have an excess of power due to the stage of the water, while the other mill will be in need of power. With the line connected it will be possible to transfer this power to any point where they need it and both mills will be kept running at their full capacity. During the recent high water this trouble was experienced several times by both mills and the new line is being erected in order to eliminate this occurrence in the future.

While it has been talked considerably of building a power line from this city to Marshfield up thru the country, in order that the communities along the line might benefit by the power, there has nothing definite been done on this matter, however, it is not dead issue by any means and might be erected during the latter part of the summer should the present talk take a more definite attitude.

PORTAGE TEAM WINS GAME

The Grand Rapids base ball team went down to Portage last Sunday when they were defeated by a score of nine from that city, who had defeated them earlier in the season. The boys down there seem to have a pretty good team, however, and the result was that the Portage boys came out of the fray with the long end of a five to nothing score. According to the boys, Grand Rapids should have won the game, Plummer striking out eighteen to the opposing pitchers, while the local team secured more base hits than their opponents. However, seven errors in the second inning put the Portage boys far enough in the lead to settle the question.

LABOR DEMANDS 44-HOUR WEEK

Would Include Workers in All Crafts Throughout United States.

TO PREVENT UNEMPLOYMENT

Railway Brotherhoods to Join the Federation, Increasing the Membership by 500,000—Telegraphers Pledge Support.

Atlantic City, N. J., June 25.—The American Federation of Labor at the closing session here of the annual convention pledged itself to obtain a general 44-hour week for workers in all crafts throughout the United States and for employees in the government service.

The demand was based on a determination to prevent unemployment, which the delegates declared is one of the two primary causes of industrial unrest.

The other cause is the decreased purchasing power of the dollar. Manufacturers and employers were urged to "bridge the gap" and increase wages "without any conditions."

Samuel Gompers, president of the federation, was greeted with a roar of cheers late in the day when he announced from the platform that three of the four great railroad brotherhoods—the engineers, conductors and trainmen—had applied for charters in the federation.

The fourth brotherhood—the firemen—was meeting at Denver, he said, to consider a similar application. If the firemen followed the example of the other brotherhoods, the ranks of the federation will be increased by 500,000 men.

Delegates are of the opinion that with the entry of the brotherhoods the federation will back the demand of the railway men for government ownership and control of the roads. This subject has been referred to the executive council with instructions to formulate a policy.

The convention pledged its support to the striking commercial telephone operators and appointed a committee to confer with Postmaster General Burleson in the hope of obtaining for the telegraphers the same concessions which have been granted to electrical and telephone workers.

A resolution was adopted requesting congress to investigate the alleged suppression of free speech and other American institutions in western Pennsylvania, while another resolution severely criticized municipal officials in Toledo for employing discharged soldiers in uniform to perform civil police duty in a strike.

The convention turned down a resolution introduced by Seattle delegates which would have put the American Federation of Labor on record as being in favor of prohibition.

The convention also adopted a resolution changing the A. F. of L. constitution so as to permit disciplinary actions against unions which show radical tendencies. The executive council is authorized to revoke the charter of any central union or body of delegates which calls a strike or attempts to take a strike vote which would, if successful, cause a walkout of affiliated bodies.

Another resolution denounced "deplorable conditions" in the railway mail service and asked that congress pass laws providing for a standard day for railway mail clerks.

GERMANS BURN FRENCH FLAGS

Violate Armistice Terms by Destroying Emblems Seized in Franco-Prussian War.

WARNS OF FOE TREACHERY

Press Tell Allies to Be on Guard Even After Peace Is Signed—Sinking of Fleet Cited—Plan to Punish Huns.

Paris, June 26.—Word of the burning of certain French battle flags by the Germans has been received here. Peace conference opinion is apparently unanimous that this is a distinct violation of the peace treaty, inasmuch as that document stipulated that the flags should be returned to France by Germany. It is probable that a commission will be appointed to consider taking action in the matter.

Presumably the foregoing refers to French battle flags taken by the Germans in the war of 1870-71. Article 245 of the peace treaty, in the original draft, stipulated that within six months after the treaty should take effect Germany must restore to France the trophies, works of art, etc., carried from France by the Germans in the Franco-Prussian war, "particularly the French flags."

The council of three, after discussing the sinking of the German fleet at Scapa Flow and considering measures to be taken if the neutrality was violated, has referred questions relative to the sinking of the war vessels to a commission of experts which will determine whether or not the armistice conditions were disregarded.

London, June 26.—Admiral von Reuter, in command of the German fleet scuttled and sunk in the Scapa Flow, will be court-martialed for having broken the armistice conditions, says the Daily Mail.

The newspaper adds that the details of the trial of the admiral will be arranged by the allied council in Paris. The German admiral denies the rumor in circulation in Paris and elsewhere that the Germans have sunk the remainder of their warships in German harbors.

Profound distrust of Germany is the predominant note in London press comments on the German government's decision to sign the treaty of peace.

The Germans proved themselves treacherous throughout the war, the latest instance being the sinking of their interned fleet in Scapa Flow. Therefore it is contended it would be premature to celebrate peace until the treaty is actually signed. Even afterward, it is said, the allies must be continually on guard until the last penalty is paid.

The German Officers' association has asked the Dutch government not to deliver the former German emperor to the allies. In a telegram officers of the association said: "We can protect the Kaiser with our bodies, but we rely upon the generosity of the Dutch people."

The announcement of the agreement to sign the peace terms resulted in patriotic demonstrations throughout Germany, Copenhagen reports. In Berlin, Munich and other large cities processions formed and marched along the principal streets, the participants singing war songs and cheering the generals of the old empire.

"HOW HATH THE MIGHTY FALLEN"

FOE SINKS OWN SHIPS; MANY DIE IN TORNADO

WAR VESSELS SURRENDERED DURING ARMISTICE ARE SUNK.

Huns Reported to Have Also Destroyed Craft at Wilhelmshaven and Other Points.

Wellmar, June 24.—The German warships which were not surrendered to the allies and which have been anchored off Kiel, Wilhelmshaven and other points, have been sunk by German sailors manning them, according to a report received here from a reliable authority.

According to the reports there were twelve German war vessels, besides destroyers, which were in German waters, not having been turned over to the allies under the armistice provisions.

Admiral von Reuter, commander of the surrendered German fleet, says he issued an order to sink the ships, and did so because at the beginning of the war the German emperor directed that no German warship should fall into the enemy's hands. He says that he believed from newspaper reports that the armistice had been ended.

London, June 24.—More than 100 German sailors are believed to have perished while trying to escape in lifeboats after the scuttling of the German fleet at Scapa Flow. Some bodies have been washed ashore and have been buried. A German submarine, the U-90, was seen on June 24, and gave signs to the German wireless message picked up by the British navy.

TRY NONPARTISAN LEAGUERS

President A. C. Townley and Organizer Accused of Violation of Loyalty.

Jackson, Minn., June 25.—Efforts to select a jury were to be started in the trial of A. C. Townley, president of the Nonpartisan league, and Joseph Gilbert, organizer, charged with violating the state disloyalty law. The defense failed in preliminary skirmishes to delay the trial until Townley could complete the campaign tour in North Dakota preliminary to the referendum election. Judge E. C. Dunn ordered Townley's attorney to have him in court, saying an election campaign was no excuse. The defense also failed to secure a separate trial for Townley. Judge Dunn ruling that in a conspiracy trial the two men indicted must be tried at the same time.

IRONCLAD MEASURE FRAMED IN HOUSE

Drastic Bill to Enforce the Anti-Liquor Law.

\$3,500,000 FUND PROVIDED

Any Beverage Containing More Than One-Half of 1 Per Cent of Alcohol Is Declared to Be Intoxicating.

Washington, June 26.—Drastic legislation for the strict enforcement of both war-time and constitutional prohibition was completed by the house judiciary committee. With only slight modifications the bill Chairman Volstead will submit to the house in the same form that proposed by the ultra drags.

An appropriation of \$3,500,000 is provided to carry out the bill. The main provisions of the bill are:

Any beverage containing more than one-half of 1 per cent of alcohol is "intoxicating liquor."

When the war-time prohibition act or constitutional prohibition goes into effect, it shall be unlawful to "manufacture, sell, export, import, transport, import, export, deliver, furnish, receive or possess any intoxicating liquor except as authorized by this act." The only exceptions are for medicinal, scientific or sacramental purposes, or where liquor is stored in private homes before prohibition goes into effect, for private use.

Punishments Provided.

Punishments for violations are as follows:

A fine of not less than \$100 nor more than \$500 for the first offense, and a fine of not less than \$200 nor more than \$1,000, with imprisonment from 30 to 90 days, for the second offense.

A fine of not less than \$500 and imprisonment from six months to two years is provided for the subsequent offenses. In addition, courts may require bonds as security that violators will not again break the law for one year.

Enforcement of the prohibition law is lodged with the commissioner of internal revenue and the department of justice.

Patent and proprietary medicine manufacturers must prove to the commissioner that their products cannot be used in place of intoxicating liquor. Liquor may be prescribed for medicinal purposes only by reputable physicians, and not more than one prescription shall be given every ten days. Pharmacists filling these prescriptions must be licensed.

Permits must be obtained to manufacture liquor for legal purposes, bond being required. Transportation permits also are required, both being furnished by the prohibition commissioner. Records of all transportation must be submitted.

Must Be Clearly Labeled

All liquor must be clearly labeled as such when sold for legal purposes.

Ten days after the passage of the act, all liquor illegally held must have been disposed of, or it shall be considered violation of the law. All liquor legally held must be reported to the prohibition commissioner. Railroad and express companies are not permitted to deliver liquor except on sworn affidavit and permit that it is for legal purposes.

Advertisement of intoxicating liquor, by any method, or telling anyone where he can get a drink is prohibited. Bill-holders will not be required to be removed, or enforcement officers have the power to print them over or remove them.

Any picture of a brewery, distillery, bottle, keg, barrel or box or other receptacle designed to serve as an advertisement thereof, is illegal.

No formulas or recipes for making liquor, and any tablets, substances, compounds or preparations for the same purpose may be sold.

Curb on Newspapers

No newspaper or periodical can print "statements" concerning the manufacture or distribution of alcoholic liquors, for which the paper receives compensation, unless with the article is the following statement, "printed as paid advertising."

Drinking of liquor in public or in a railroad train, automobile, dining car or vestibule of a train is prohibited and conductors are given the power to arrest.

Any person injured by an intoxicated person can bring suit for damages against the person who sold or assisted in procuring the liquor for the intoxicated person.

Bootleggers shall be fined not less than \$500 nor more than \$1,000 and imprisoned for not less than one month nor more than a year.

Any violation of the act on leased premises shall constitute a forfeiture of the lease.

Here's Search Provision.

Search for liquor may be made on a warrant issued by a federal court, a court of record or a United States commissioner.

Liquor seized may be destroyed or turned over to the government for scientific or medical purposes, upon conviction of the holder.

All vehicles used for illegally transporting liquor, including motor cars, boats, barges and airplanes shall be seized by the officers, and disposition ordered by the court.

SENSIBLE TREATMENT OF HEN

Indispensable Requirements for Success Are Comfortable Quarters and Good Feed.

It makes no difference to a canny farmer if it is kept in a cage that cost \$10 or 10 cents or whether it has its feed and drink in china or earthen dishes; but it makes an immense difference whether it has good care or is neglected, and whether or not its needs are properly supplied. These things are equally true of a hen. Sensible treatment is of far greater importance than stylish quarters.

A fine equipment should not be despised. It can be so used as to be of great value. Still it is not one of the vital things. The indispensable requirements for success in the poultry business are good stock; comfortable and healthy quarters; feed and drink of good quality, in proper quantity and at suitable times; and full protection from diseases and enemies.

Chick comfort is the duly secret of success in chick rearing.

BANDITS MAKE WOMAN DISROBE

Trio Gets \$1,800 Diamond Ring Hidden in Clothes, She Tells Police.

Chicago.—Three ungallant holdup men compelled Mrs. Grace Harvey partly to disrobe in her apartment at 3514 South Michigan avenue. So persistent was their search for hidden loot, in fact, that the pretty young woman finally defied the robbers' menacing pistols rather than "drop another stitch."

The police found certain mysterious circumstances which lead them to believe the affair was unusual, as such

Yet, though the ring was invisible, the robbers immediately demanded that she produce it. And when she protested ignorance of such a ring she was ordered to disrobe.

Three Are Electrocutted by Clothesline Contact

Honolulu.—Hawaii.—Mrs. James S. Nott, her six-year-old baby boy and a Chinese servant were electrocuted while hanging out clothes in the rear yard of her home in Honolulu.

An electric light extension, leading from a back porch to a fernery, had been strung across the galvanized wire clothes line. In some manner the insulation became broken and the clothes line was charged with electricity.

The Chinese servant was the first to die. Mrs. Nott, in going to his aid, was electrocuted. It is believed that the little boy attempted to help his mother and in so doing was killed.

GERMANS BURN FRENCH FLAGS

Violate Armistice Terms by Destroying Emblems Seized in Franco-Prussian War.

WARNS OF FOE TREACHERY

Press Tells Allies to Be on Guard Even After Peace is Signed—Sinking of Fleet Cited—Plan to Punish Huns.

Paris, June 23.—Word of the burning of certain French battle flags by the Germans has been received here. Peace conference opinion is apparently unanimous that this is a distinct violation of the peace treaty, inasmuch as that document stipulated that the flags should be returned to France by Germany. It is probable that a commission will be appointed to consider taking action in the matter.

Presumably the foregoing refers to French battle flags taken by the Germans in the war of 1870-71. Article 245 of the peace treaty, in the original draft, stipulated that within six months after the treaty should take effect Germany must restore to France the trophies, works of art, etc., carried from France by the Germans in the Franco-Prussian war, "particularly the French flags."

The council of three, after discussing the sinking of the German fleet at Scapa Flow and considering measures to be taken if the armistice was violated, has referred the question to a commission of experts which will determine whether or not the armistice conditions were disregarded.

London, June 20.—Admiral von Reuter, in command of the German fleet scuttled and sunk in the Scapa Flow, will be court-martialed for having broken the armistice conditions, says the Daily Mail.

The newspaper adds that the details of this trial will be given in the future by the allied council in Paris.

The German admiralty denies the rumor in circulation in Paris and elsewhere that the Germans have sunk the remainder of their warships in German harbors.

Profound distrust of Germany is the predominant note in London wireless comments on the German government's decision to sign the treaty of peace.

The Germans proved themselves treacherous throughout the war, the latest instance being the sinking of their interned fleet in Scapa Flow. Therefore it is contended it would be premature to celebrate peace until the treaty is actually signed. Even afterward, it is said, the allies must be on guard until the last penny is paid.

The German officers' association has asked the Dutch government not to deliver the former German emperor to the allies. In a telegram officers of the association said: "We can protect the kaiser with our bodies, but we rely upon the generosity of the Dutch people."

The announcement of the agreement to sign the peace terms resulted in patriotic demonstrations throughout Germany, Copenhagen reports.

In Berlin, Munich and other large cities processions formed and marched along the principal streets, the participants singing war songs and cheering the generals of the old empire.

VILLA TROOPS ARE DEFEATED

Sixty-Three Rebels Slain, Many Others Wounded; Routed at Villa Ahumada.

"HOW HATH THE MIGHTY FALLEN"

FOE SINKS OWN SHIPS; MANY DIE IN TORNADO

WAR VESSELS SURRENDERED DURING ARMISTICE ARE SUNK.

Huns Reported to Have Also Destroyed Craft at Wilhelmshaven and Other Points.

Wellmar, June 24.—The German warships which were not surrendered to the allies which have been anchored off Kiel, Wilhelmshaven and other points, have been sunk by German submarines, according to a report received here from a reliable authority.

According to the reports there were twelve German war vessels, besides destroyers, which were in German waters, not having been turned over to the entente under the armistice provisions.

Admiral von Reuter, commander of the surrendered German fleet, says he issued an order to sink the ships, and did so because at the beginning of the war the German emperor directed that no German warship should fall into the enemy's hands. He says that he believed from newspaper reports that the armistice had been signed.

London, June 24.—More than 100 German sailors are believed to have perished after the scuttling of the German fleet at Scapa Flow. Some bodies have been washed ashore and have been buried. A German four-master, the Evening News learns, appeared three miles off Scapa Flow Wednesday and gave signs to the German warships. The intention is that this mystery vessel conveyed the order for the sinking of the fleet. A German wireless message picked up in London said the German crews went to England in the belief the ships were to be preserved to the fatherland, but when they found out this was not so they sank them in preference to surrender.

Some of the boats were caught by gunfire from the British guardships, and a number of their occupants killed and wounded. The others, including the main rear admiral, are under arrest aboard British warships.

TREMENDOUS TASK BEFORE CONGRESS

NUMBER OF BIG PIECES OF LEGISLATION ON PROGRAM IS UNPRECEDENTED.

LONG DEBATES ARE CERTAIN

Appropriation Bills Must Be Put Through in a Hurry, but Some Other Measures Will Require a Great Deal of Time.

By EDWARD B. CLARK.
Washington.—Congress is considering, or already has considered in part, a program of legislation on which nearly every measure appears as a top liner. It is doubtful if ever before in the history of the country there were so many big pieces of legislation before congress at one time as is the case today, and in saying this one is mindful of those congressional periods in which the country was engaged in war.

It is only necessary to take a list of the comparatively few things which were given either full or partial consideration in one or the other of the two houses within the space of four days in order to prove the point of the legislative importance of this session.

In less than a handful of extremely hot weather days congress discussed the woman suffrage amendment; the peace treaty; legislation for the return of telegraph and telephone lines to private operation; the repeal of the luxury tax section of the war revenue bill; a resolution for the investigation of war department expenditures; the agricultural appropriation bill, with its rider to repeal the daylight saving law; the request of the railroad administration for \$1,200,000,000 for use in operating the rail lines during the calendar year; army and navy appropriation bills; enforcement of war-time and constitutional prohibition, and legislation concerning the display of the red flag in public demonstrations.

Will Require Months of Work.
It is some time, is it not? One or two of these things already have been acted upon, but weeks and perhaps months of discussion must follow before even this comparatively small section of the congressional calendar can be cleared up. It is perfectly futile to attempt at this early stage of the session to prophesy what congress will do in many of these matters. Republican majorities of course must render the possibility of presidential vetoes, and must make up its mind whether it will profit more by a veto than by holding off on legislation which is certain to meet the "I forbid."

For two or three weeks prior to the convening of the extra session the talk of bystanders and onlookers in Washington was that September would see the close of debates and that at that time the congressmen might return to their homes to get three months' rest before coming back again for the regular session in December. Now all such thoughts have gone down the wind. Congressmen are still planning to stay at least until sometime next year. It is believed that unless something comes to change the complexion of things the senate will debate the pact of peace and the covenant of the league of nations for months.

Haste With Appropriation Bills.
There is special feeling made on the appropriation bills. It is absolutely necessary in order to run certain branches of the government that these bills shall be put through and signed by the president before the advent of July. Not very many times in the history of the government have departments been compelled to run on money. Once by that time the army got along a while without any pay. Congress passed an army appropriation bill, but tucked a rider on to it which the president of the United States did not like. Hayes was president at the time.

The president cannot sign part of a bill while vetoing part of it. He must either sign or veto the whole thing. It is likely some day that the occasional mounting of riders in the saddles of appropriation bills will be discontinued. As a rule the riders never reach their destination.

Uncle Sam Roused by "Reds."
The lessons that the officials who believe in punitive measures draw from the attempted assassination of Attorney General A. Mitchell Palmer in Washington, and from other entirely lawless proceedings elsewhere, is that the mollycoddling of anarchists is more dangerous to the public than hanging them.

It is pointed out by the Washington officials that the attacks by bomb throwers will only increase and extend the activities of the men detecting forces. We are determined now as heretofore that organized crime directed against organized government in this country shall be stopped.

There is a difference of opinion in Washington as to whether or not the government officials have been as active against law breakers of all kinds since the beginning of the year. The critics of the department of justice and of other departments say that everything that could be done has been done and that it is a mistake to believe that leniency with certain classes of disturbers has been the rule and that as a result attempts at terrorism have increased.

It is necessary to go into an analysis

Senile Marriages.
Some believe in vintners would have been in a hurry with the Brooklyn marriage. It is maintained that at 86 he was too old to be legally married, in fact, under the Emperor Augustus, a law was passed forbidding men to marry when they were over 60, and women when they were over 50, Peter the Great, also disapproved of senile marriages, and enacted that no marriage age contract should hold good if either of the contracting parties was over 80 at the time it was entered upon.

This Generation's Duty.
The breath is the life, and we cannot know too much about breathing. If the people of this generation will learn how to supply their lungs with pure oxygen and leave their bodies free from compression under the solar plexus line in the next generation will be prolonged many years and disease will be lessened to a great degree.

Optimistic Thought.
Talkative persons are like barrels; the less there is in them the more noise they make.

of war time conditions to show the development of the anarchistic propaganda which has resulted in overt acts against life and property in the United States.

Hun Propaganda Aided Anarchist.
When the United States entered into the war with Germany government officials found there were in existence in the United States all kinds of organizations, formed, for purposes which could not fail in their effect to help the cause of the Huns. These organizations were not anarchistic in their nature, but that they helped anarchy to one can doubt.

There were associations formed for the purpose of keeping young Americans out of the army through the extending of aid to men who pretended that they were conscientious objectors. There were organizations which preached the doctrine of "lying down" and that the way to overcome the German was to kiss him on both cheeks and pat his back.

When the government began to get after these associations which, while professing loyalty and patriotism, in reality were helping the Germans, they discovered that it was an exceedingly difficult thing to differentiate between this society and that society. One organization might well be within the law while another was outside of the law, but the difficulty which the government officials met was to define accurately the fields of legality and illegality. The natural result followed.

Liberty Plea Shielded License.
Many lawbreakers who were helping the Germans indirectly escaped the lash of the law. The plea of infringement of the right of free speech was used constantly to enable men to escape the penalties which they should have suffered. It followed naturally from the escape of men and organizations of this type that men and organizations of other types took courage and believed that under the banner of the right to free speech in a free country they could escape justice.

Anarchy was emboldened. It was quelled under all sorts of guises. It became difficult to tell just what was an anarchistic society and just what was some other kind of a society. The result was that the government prosecutions frequently did not reach their goal. Leniency was charged against the government officials when in truth perhaps their only crime was their inability to get the required proof.

White House Virtually Closed.
The White House for some time has stood lonely and aloof. Seemingly the old place must miss the hurly-burly which it has housed through the years, or at least which one of its wings has sheltered, for the westernmost part of the mansion has been the scene of cabinet meetings, of the rabble of beseeching politicians, of open and of closed conferences, and of general political and legislative planning activities through the four administrations during which this adjunct of the White House has had its bulwarked existence.

During all the time of the president's absence in Europe, and during all the time of the actual warfare, the White House proper was closed to visitors. Today a few fortunate ones under proper guidance are admitted to the lower rooms, but for the main part its isolation is complete. The White House itself is a beautiful structure, but its beauty is as nothing to the colorful glow of its environment. The few fortunate ones who today are allowed to enter the mansion occasionally are led either from the office wing through the wonderful garden and the tennis courts, or through the three seasons by Mrs. Woodrow Wilson. This garden is a hallowed place, hedged in by the most wonderful "hedge product" ever seen even in this country of hedges. The green wall which encloses three sides of this garden spot of the great White House grounds is six feet high and three feet in depth. It flourishes literally like the green bay tree. Its only rival in the Potomac country is the fine box hedge planted at Mount Vernon by the hands of George Washington.

Garden Planted by Mrs. Roosevelt.
This White House garden, which forms of course only a small part of the White House grounds, has been an institution of three administrations. When Mrs. Roosevelt lived in the White House she planned an old-fashioned garden, and she put her plan into effect. From the windows of the White House one looked down on a garden in which bloomed geraniums, pansies, nasturtiums, hollyhocks, forget-me-nots, roses, bachelor buttons, fuchsias, gladioli, and all the rest of the old time favorites.

It was Mrs. Roosevelt's custom to invite her intimate friends to afternoon tea in the old-fashioned garden. There in the late afternoon the garden lay under the shadows of the great trees which were shaded by the arches of the White House grounds for many years. The place was quaint, old-fashioned and fragrant and the elders of Washington life renewed the days of their youth before the plain flowers had been supplanted by the exotics which modern gardeners insist must have the place of prominence in sun and in shade.

Mrs. Taft continued the old-fashioned garden, and so did the first Mrs. Wilson. The present mistress of the White House loves roses. The garden of today is a mass of rose blooms and the air all about is saturated with the fragrance of these wonderful flowers. In Washington the roses bloom from early May until well on toward Thanksgiving, and so the beauty of the rose garden is assured for many months to come.

Rain water is "soft" because it contains no mineral matter.

Land Women Still Needed.

EDDIE CICOTTE, WHITE SOX PITCHER, DISPLAYS HIS SUPERSTITIOUS STREAK

Superstition is a great little institution, especially as applied to baseball players. One could no more separate the average player from his belief in the uncanny world of magic than one could argue Buck Weaver out of a base hit. There is the case of Eddie Cicotte, for instance.

After what has happened to this eminent shine ball and knuckle ball expert this year but players will be more securely entrenched in the beliefs that sway their activities and influence the action of their managers, writes George S. Robbins in Chicago News.

Cicotte is Superstitious.
"Eddie, I want you to pitch the first game of the year," said Kid Gleason, addressing Cicotte.

"I'd rather not, boss," replied Cicotte.

"Why not—what's the argument?" asked the Kid.

Then this famed finger unfolded the most amazing story that the Kid had heard in many a day. Gleason, who doesn't believe in superstition, just had to listen to Eddie.

"You see, Kid, when I've pitched an opener I've had a rotten season," explained the foxy Cicotte. "I appreciate the honor of being asked to hurl the first game and all that, but I don't care for the honor—I want to win. When I've not pitched the opener I've won."

Gleason was reluctant to accede to this amazing request. The first impulse of the scrappy leader would have been to give a ball player a nice little cuff, reminding him painfully of his indiscretion. Cicotte, however, stands ace high with the Kid and Gleason recalled that a game was won the second day of the season was just as valuable in the team standing as one captured on opening day.

"You win, Eddie," replied this veteran conditioner of athletes.

That is why the preseason dope of Cicotte's pitching the opener kid went awry. Williams hurled the first game and Eddie the second. Gleason was skeptical about the superstition business, but was eager to find out whether Cicotte's "equalities" have proved that Eddie was laboring on a lucky tip.

Victorious in 1917 Season.
As the dope ran, Cicotte failed to pitch the opening game in 1917 and the world knows what happened. He literally sifted through the circuit with his mixed assortment of shab wars like a shell through a chain of straw. The preceding season Cicotte started the ball rolling in the American league for the Sox and he had a mediocre season.

In 1918 Cicotte pitched the opener for former Manager Rowland. One's memory doesn't need to be refreshed to recall what happened last year. Cicotte traveled fifty-one leagues without a run being scored behind his slugging. It was counted among his unlucky years.

With a small portion of the 1919 season rested off, Cicotte looks to be invincible on the hill. His delivery seems identical with that of 1917, when he won the league flag for Chicago hands down.

Cicotte today is the most feared pitcher in the American league just as he was in 1917 when he didn't pitch the first game for the Chicago Sox.

CREDIT GIVEN DAVE SHEAN

Thought by Other Members of Boston Red Sox to Have Made Team Possible Pennant Winner.

Dave Shean is thought by the other members of the team to have made the Red Sox a pennant winner last year. Dave stepped into Jack Barry's shoes and filled them very acceptably. Shean is not as young as he used to be. He waited a long time before being accorded the major league recognition it is now conceded that he deserves.

Dave knocked around in the minors for quite a while. He even tried his hand at managing the Providence team of the International league. And he was a good manager.

He had been up in the National league once with Boston and turned back. Three years ago he came up again with Cincinnati.

He played the role of hero of the world's series between Pittsburgh and Detroit. He pitched the first game for the Pirates against George Mullin and won it by a count of 4-1. Then, after Bill Donovan and benten Willis and Mullin had trimmed Leifeld, while Maddox sandwiched a victory over Summers in between these two games, Adams came back to the mound with the count of two all and Pittsburgh made eight runs for him, while he held Detroit to four. Mullen came back in the sixth game for Detroit and won, and Adams won his third game and the series when he shut out the Tigers 5 to 0 in the final contest.

DIAMOND NOTES

There are 1,800 baseball players on organized teams' reserve lists.

Little Rock has released Pitcher Harry Coveleskie. He could not come back.

The Cardinals on paper appear capable of better ball than they have been playing.

Everett Scott of the Boston Red Sox has been doing some heavy batting of late.

Umpire Murray was bombarded with cushions at Minneapolis. Better cushions than pop bottles.

When it comes to making two and three-base hits, the American league has a great advantage on the National.

J. P. Austin, the veteran of the St. Louis Browns, is back on third base and leadoff man in the batting order.

In the Toledo-Columbus game of May 13 Pete Knisley got five hits in five times up.

Had Eller of the Reds is not only now a no-hit pitcher, but he has been showing some class as a hitter.

J. Lester Altchison, a pitcher and outfielder of Maryland Agricultural college, has been signed by the Brooklyn Dodgers.

S. S. Smith, the Brooklyn pitcher who recently returned from service overseas, appears to be in championship form.

E. J. Pfeffer of Brooklyn and C. A. Causey of the Glants are having a great race for leading pitcher in the National league.

Leslie Nunamaker was awarded \$4,500 for injuries received in an automobile accident last December. The St. Louis catcher sued for \$15,000.

CANNOT PLAY BALL

According to Bert Lourey, sporting editor of the San Francisco Call, who has but recently returned from France, where he was engaged in Y. M. C. A. work, the French cannot grasp our game of baseball. "They are too slow in getting in front of the ball, and duck when liners come their way," he says.

Bill Lange, the old-timer, who has also been overseas, backs this statement, saying that trying to teach Frenchmen the game was a hopeless task.

WORLD SERIES HERO BACK WITH PIRATES

Babe Adams, Veteran Pitcher, Will Try to Come Back.

After Being Dropped by Pittsburgh in 1917, He Drifted Into Western League and Then to Kansas City—Made Good.

Charles B. ("Babe") Adams, hero of the 1909 world series, will try to come back with the Pittsburgh Pirates this year.

Adams is thirty-five years old and a real veteran as pitchers go. It was in 1916 that Adams took the tobyogan with the Pirates and was labeled as through by the scribes. His pitching for that year was more or less of a joke, for he won but two games and succeeded in losing nine more before Barney Dreyfus made up his mind to let his veteran star go.

In 1917 Adams drifted into the Western league, signed up with Jack Holland at Hutchinson and staged a comeback that surprised everybody. He won 20 games of ball for the Hutchinson team and lost 13, and he was rated as one of the hardest working pitchers in the league, which has always been noted as a league that harbors many a hard-hitting southerner, and may a crafty old-timer who is on his way back.

Adams' record with the Hutchinson club won him a trial with John Gangel at Kansas City last season and during the abbreviated pennant race in which the "Blues" won the pennant Adams captured 14 games of ball and lost but three for the Kansas City club.

This feat won him his chance to try a real comeback with the Pirates this year and his boosters are predicting that he will make good.

Adams emblazoned his name in baseball's hall of fame back in 1909 when

CLOSE SHAVE FOR SHOCKER

St. Louis Pitcher Compelled to Thrust His Bayonet Through German to Save His Life.

Urban Shocker, star pitcher of the St. Louis Browns, who returned recently from service overseas, confessed to relatives here that he "had a narrow escape to get in, but the famous bayonet maker, Byron, was on the job and quelled the riot and allowed both players to stay on.

Rankin Johnson Still a Bear.
Pitcher Rankin Johnson of Fort Worth held Dallas to one hit on May 3, which landed him in Rankin in the Texas league is still a bear.

Believed Oeschger a Winner.
Jack Coombs of the Phillies declared in a recent interview that he believed Joe Oeschger would be a big winner when he got going and that he wouldn't think of trading him—and then he went and did it.

Presents for Jack Quinn.
Chicago admirers of Jack Quinn gave him a gold watch, a slick pin and various other presents when he appeared to pitch a game for the Yankees in the Windy City. Then the White Sox went out and scratched over a win on him

Many Styles of Daytime Crowns

Daytime summer dresses are widely varied now that the twilight hours are so long, thanks to the imaginary hour we advanced last March, observed a prominent creator of fashions. The early part of the day is given over to sport frocks or simple silk and voile gowns with organdie fichu or trimmings of lace for the less strenuous persons to whom "sport togs" are not becoming. With the coming of afternoon femininity begins to think of dressing for dinner, with the result that the necks of afternoon gowns are quite low and the sleeves very sheer or quite short.

Georgette crepe in plain ground and flowered patterns is profusely used for these cool, clingy afternoon frocks. Rose, orchid and flesh pink are the favorite colors, made up in combination with white. Crepe chiffon, which is the loveliest of the crepe fabrics, makes exquisite gowns for afternoon and evening wear, while charmeuse and meteor in all the pastel shades are exquisite and develop many entrancing frocks.

Organdie and the softer fabrics of batiste and cotton voile make exquisite lingerie dresses which look their loveliest when making a background for the much of the party girl. Vivid shades of red and coral organdie are very popular for these girlish frocks, while the demand for pink, blue and orchid never wanes. The imported organdies, which run in lace squares and stripes, are capable of exquisite development into dainty afternoon frocks of the quaint variety.

There are many tissue-like cottons to which the manufacturers have turned us this year. These sheer materials combine well with white organdie ruffles and are equally lovely with trimmings of Val lace.

Hand-embroidered frocks of white mull and batiste are always attractive when the mercury plays tag with the 100 degree mark and cool verandas beckon; but these gowns are difficult for the moderately skilled dressmaker to duplicate. Unless an embroidered gown is strikingly lovely in its daintiness or beautiful in the elaboration of its embroidery, it seems a foolish waste of money for the effect achieved.

Embroidered flouncings are adapted to some of the models, but flouncing usually has to be made up in a rather set way.

Georgette and Organdie.
An interesting gown which combines flowered georgette crepe and white organdie is the model having the ruffled side panel. In this material white flowers are scattered on a pink ground. The waist of this dress is very simple and it depends upon the beauty of its material rather than on the elaboration of its lines for success.

The sleeves are sewed into a plain blouse which is cut away in front to display a vest of hand-tucked organdie.

Another gown which displays side panels is in the soft lines of gray georgette crepe. The blouse of this dress is kimono with a deep fold of georgette over the shoulders to outline the square neck and display the front of soft cream lace which extends into a canisole beneath the gray georgette blouse. The sleeves of this gown are one of its cool features, being three-quarter length and quite wide. The deep turned-back cuffs are embroidered with two bands of steel beads. The same embroidery appears across the shoulder straps. The girle of this graceful model gives a striking note of color to the whole gown. It is made of two bands of soft taffeta ribbon, one vivid green-blue and the other of grayish-rose. The flowers on the girle are hand-made from these shades of taffeta with a touch of apple green.

An Unusual Model.
The skirt is draped in a gracefully narrow line. On either side hang two sash-like panels of gray georgette about 10 inches wide. These panels are pleated edged and bordered with three rows of narrow head embroidery. This gown is made over a slip of flesh-colored charmeuse. With this dress is worn a broad black hat, trimmed with shaded pink roses.

Possibly among the most unusual models is the gown of green and white striped georgette. There is a bit of white in the charmeuse, which reaches to the neck line and from the front view has the look of a jumper, which displays the striped sleeves. This jumper continues into a deep V-line at the back and disappears beneath a girle of green charmeuse. At the neck line the jumper extends into very long, narrow straps that tie beneath the waist line at the center back and hang in long ends finished with green and white striped georgette buttons straight down the back with round bell buttons made of imitation jade. The kimono sleeves are gathered into deep bell cuffs of green charmeuse.

The skirt of this gown is draped in a panner on one side. A broad black hat, faced with satin and trimmed with satin knife-edged wheels is the picturesque complement of this striking costume.

Gown of Green Charmeuse, With Waist of Green and White and Striped Georgette.

which is cut in bands and sewed together by means of tiny cords of organdie. Around the neck and vent runs a crisp ruffle of white organdie, pleated finished. The bell-shaped sleeves are cut three-quarter length to display long, tight cuffs of organdie made into tucks and cords to match the vest.

The skirt of this gown is slightly gathered at the waist line. It is trimmed with three folds of flowered georgette which simulate tucks, above which crisply stand ruffles of white organdie. The panels which characterize this skirt are long and rather wide and are edged with organdie ruffles. Wherever these organdie ruffles appear they are machine hemstitched to the georgette crepe with pink thread.

With this picturesque gown is worn a broad hat of pink straw, faced with pink Barouette and tied with the ribbon of Barouette.

Should Keep Mirrors Clean
Cloths Used for Cleaning Looking Glass Should Not Be Used for Anything Else.

Clean cloths are essential to clean mirrors. A cloth that has been used for something else and is only a trifle soiled will ruin the appearance of a big mirror, for every speck of dust or smear of grease seems to be much enlarged on the smooth and hard surface of a mirror.

So the first requisite to clean mirrors is a supply of clean cloths, which are never to be used for any purpose save cleaning mirrors. These should be kept clean and dry and folded. They can be used more easily if they are not ironed.

The mirrors should be dusted every day, and when it is necessary to wash them they should first be freed from dust with a dry cloth. They should then be covered with a film of some cleaning preparation—there are several cleaning materials sold in cakes or bricks and some pastes which need

only the addition of a little water to be ready to use.

The cleaning preparation should be washed off with a fresh, damp cloth and then the mirror should be rubbed dry with a dry cloth, chamols or bits of tissue paper wadded up. All the clean tissue paper, the sort that comes about hats and suits, can be saved in a big cretonne bag for polishing mirrors and windows.

Demand for Jewelry.
To judge from the optimistic reports coming from all branches of the jewelry trade the prosperity of the country is unprecedented. All varieties of jewelry are said to be selling very freely, the cheapest sharing in the increased demand as well as the more expensive articles. Among the features of the buying that is now being done are the number of orders for goods to be made up from special designs and the amount of buying of expensive platinum and diamond jewelry. In the demand for the latter the call for rings, bangles and diamond sashoir watches stands out prominently.

Husband Tires of Doing Housework.

Left Her in Good Spirits.
San Francisco.—After phoning headlong into a rat of wine, Miss Sonlight refused to come out. Galleman Welch and a lasso removed her. He left her in good spirits.

A gown which is in striking contrast to the elaborate effect of the georgette model is found in the dress of gray charmeuse, one of the loveliest fabrics in the world. It looks like the sheen of moonlight on water.

In Gray Charmeuse.
The neck of this gown is finished with charmeuse, which is brought into striking worldliness by a row of red satin buttons and red round buttonholes. The gown fastens down the front in an unusual line which runs from the collar to an insert of red charmeuse strapped with folds of white taffeta, which gives a bizarre note to the otherwise demure look of this gown. A row of similar red buttons runs down the side of this insert.

There are many tissue-like cottons to which the manufacturers have turned us this year. These sheer materials combine well with white organdie ruffles and are equally lovely with trimmings of Val lace.

Hand-embroidered frocks of white mull and batiste are always attractive when the mercury plays tag with the 100 degree mark and cool verandas beckon; but these gowns are difficult for the moderately skilled dressmaker to duplicate. **WELL KNOWN SIGEL COUPLE
WERE MARRIED LAST WEEK**
Miss Laura H. Scholten and Wil-
liam Scholten, both very well known
young people of the town of Sigel,
were united in marriage at St.
John's Lutheran church in Sigel
last Wednesday morning at eleven
o'clock. Rev. Gieselman of that
church performing the ceremony.
The bride was attended by Miss
Louise Hackbarth, as bridesmaid,
while John Scholten was the best
man. The bride made a very at-
tractive appearance in white satin
carrying a shower bouquet of white
roses. The bridesmaid was very
pretty gowned in pale blue tulle.
Following the ceremony the wed-
ding party gathered at the home of
the bride's parents, where a wedding
dinner and supper were served to
many of the friends and relatives of
the young people, who had assem-
bled in honor of the occasion. The
home had been very attractively de-
corated in pink and white roses and
peonies, set in a background of green
foliage, making it a perfect bower
of flowers.

Mrs. Scholten is the daughter of
Mr. and Mrs. Herman Hackbarth and
is one of the well known and popu-
lar young ladies of Sigel. She has
been living in that town with her
parents for a number of years and
has made a host of friends there as
well as in this city. The groom is
one of the county's progressive young
farmers who served the colors dur-
ing the war and has returned to
civilian life on the farm. Mrs. Schol-
ten is the sister of Mr. and Mrs. J. H.
Scholten and is an industrious young
man with every respect for a brilliant
future. He was honorably dis-
charged from the service in March
after serving overseas.

The young couple will make their
home on a farm in the town of Sigel
and start their wedded life with the
best wishes of the Tribune and a host
of other friends.

**WOOD COUNTY BREEDERS
HELD SUCCESSFUL PICNIC**
The Marshfield Herald tells the
following of the picnic held by the
Wood County Breeders Association
last Thursday, when a number of the
stock raisers from this vicinity went
up in the northern end of the county
to enjoy the affair. The story says:
One of the most enjoyable picnics
yet held by the Wood County Breed-
ers Association took place Thurs-
day at the C. F. Schneider farm on
the north city limits. About 200
people attended, nearly all of whom
came in their own cars. On the
lawn in the shade of wide spreading
maple trees, benches were provided
for all, who greatly enjoyed the
talks given by H. D. Griswold, of
West Salem, who spoke on better
stock and Fred Schwaboda, county
agent for Marathon county, who
delivered a most interesting dis-
course on the needs of cow testing
and the improvement of herds, by
better breeding. The balance of the
afternoon was given over to out door
sports in which old and young took
part. A feature race was a 50 yard
relay composed of six Holstein and
six Guernsey breeders to determine
the championship of the two breeds.
The Holstein breeders won. Follow-
ing this was a sack race which was
won by W. W. Clark and Wilmer
Drollinger; an old mens race in
which George Arlens won first and J.
T. Graham second with A. Socor and
John H. Gadsdon taking third and
fourth places. Emma Knapton won
the women's race and Jack Clark the
boys race. The days sports ended
with a ball game. It was a day of
great enjoyment and equal to the
best day at a county fair.

**MICHIGAN TO PLANT
ROADSIDE TREES**
The Michigan Legislature recently
passed a law to encourage the plant-
ing of nut-bearing and other food-
producing shade trees along State
trunk highways and other roads
built in that state. The law makes
it the duty of the State Highway
Commission and the State Commis-
sion of Agriculture to look after the
setting out of such trees and of the
State Agricultural College and the
Public Dominion Commission to dis-
tribute stock at nominal cost to
local officials and private individuals
who will set it out. Trees are to
be planted at intervals of 20 to 40
feet along the roads. Injuring
roadside trees or wilting notices of
any kind to them is made a misde-
meanor punishable by fine of \$1 to
\$25 and imprisonment of not more
than 30 days. This law is an keep-
ing with the policy of encouraging
tree planting announced by the Uni-
ted States Department of Agriculture
the department of the Federal Gov-
ernment that administers the Fed-
eral aid road law, in cooperation with
the states.

Before bees can be moved and bee
supplies can be resold, a state ento-
mologist will be required to issue a
permit of inspection certificate, as a
result of a new bill by the
governor last week. There has been
a rapid spread of disease among bees
in the state and it is hoped this will
eliminate the spread. Wisconsin is
one of the leading honey producing
states of the union.

A man hasn't any sense. He would
rather have something to eat on the

would soon tire of loafing. But
there is many a weary plodder who
would like to make the experi-
ment.

barn built.
Erle Jacobson is home from Mani-
towish where he has been spending
the past season.

AUBURNDALE
The sympathy of the entire com-
munity is extended to the bereaved
family of Mrs. Peter Scholter whose
death occurred while she was attend-
ing an entertainment at Rosellville,
at 10 o'clock Thursday evening of
last week. Deceased was 48 years
of age and moved here with her
husband and children eight years
ago from Ashford, Wis. She is sur-
vived by her husband and five chil-
dren, Adolph, Raymond, Oscar,
Catherine and Helen. Funeral ser-
vices were conducted from St. Mary's
Catholic church Monday, Rev. Fr.
Mueckelheide officiating.

Michael Strigl who has been a res-
ident of this place all his life passed
away at St. Joseph's hospital at
Marshfield Saturday. Mr. Strigl
had not been feeling well for some
time, but never the less his death
came as a shock to his family and
friends. Deceased was 44 years of
age and is survived by his wife and
six children. The funeral was held
Wednesday from St. Mary's Catholic
church, Rev. Fr. Mueckelheide officiat-
ing.

at the Albert Krause farm. A weasel
got in the house and killed seven
geese and the cat.
Lightning struck the barn of W.
Bromm and Albert Mason who
sleeps in the barn was not hurt.
Albert Fols and Fred Russ bought
some standing hay from Jim Cotus
which they intend to cut before very
long.

The hay crop in this vicinity this
year is good and the weather is very
favorable for the cutting.
An accident happened to a travel-
ing man last Saturday near Mill-
dore. His car tipped over and the
man was pinned under the car for
some time. It was a Ford roadster.

Rapids sheared sheep for F. A. Jones
last Monday.

N. E. Nelson and son, Clarence of
Arpin were business callers in the
neighborhood last week.
The S. S. C. meeting at Mrs.
Merriam's last week was very poorly
attended. Those who were absent
missed a demonstration of the use
of aluminum ware by Mr. Rosen
the agent. The next meeting will
be held July 10, the place to be an-
nounced later.

BIRON
Jeff Akey and a few more friends
were at Nekosia one night the past
week to attend the home coming
of the people of our village
attended the union meeting last
Wednesday.
Wm. Gelbal and crew of men who
are working on the new piece of dam
are getting along nicely for such
weather as we have had of late on
account of so much rain and high
water.

The Consolidated ball team play-
ed here at Biron Thursday. The
score being 10 to 18 in favor of
Biron. The Biron boys are getting
in good trim for to meet most any
body.

Leonard Pascawis has resigned
his position here as teamster and has
moved to Grand Rapids for the
present.
The Biron boys had one more ball
game the past Sunday with a team
from Big Prairie. The score was 3
to 17 in favor of Biron.

Arthur Paulson was at the mill
here one day the past week. Arthur
just came back from France.
Emmett McGrath has now in his
possession a nice new touring car
that he purchased lately.

Leland Rocheleau will soon move
in our village with his family. Le-
land will have charge of the barn
here and drive the Company team.
We had a big chowder up river
one day last week and C. A. Sipe did
the cooking. The chowder consisted
of 5 big turtles. Everybody had a
good time.

family spent the past Sunday in our
village with friends and relatives.
August Binger, who has been in
the hospital since early last fall was
in our village Sunday. August is
looking fine and will soon be among
us again.

There was quite a racket at the
home of John Wolfe when it got out
that he had just got married to Mrs.
Baldwin. It must have been right
for John gave the boys all they could
for in the way of beer and cigars.

Mr. Ben of Amherst was in our
village one day on business.

were married at Fond du Lac
last Thursday and arrived here the
same day to visit relatives. They
spoke to make their home at Kollze,
Ila., where Mr. Kollow has been em-
ployed since being mustered out
of the service. All their Auburndale
friends join in wishing them a
happy future.

It was a great shock to the Au-
burndale people to hear of the sad
accident which happened to E. H.
Wagner last Saturday while on his
way to Marshfield. He has a great
many friends here who will miss him
very much.

ALTENDORF
The O. J. Lou family attended the
Breeders picnic at Marshfield last
Thursday.
Peter, John and Anna Andl and
Mr. and Mrs. Kline of Nekosia visit-
ed at the Jos. Seim home Sunday.
Sophie Scholter is home from Ma-
disen for an indefinite stay.

O. J. Lou was in the town of Car-
son, Portage county and the towns
of Auburndale and Lincoln the first
of the week on business for the
Seneca, Sigel & Rudolph Mutual In-
surance company.
F. Marx celebrated his birthday
last Saturday evening. Only rela-
tives and a few friends were present.
Mr. and Mrs. Henry Loock of
Grand Rapids visited at the Peters
home Sunday.

Mrs. Frank Linser has had quite
a serious time with her eye, it hav-
ing been injured some time ago.
There are a lot of cynics in this
world. But we never knew a woman
hater who wouldn't trail a good look-
ing Corn Fed for a mile if she gave
him a smile of encouragement.

Optimistic Thought.
Strength wanting judgment and pol-
icy to rule overturneth itself.

**WELL KNOWN SIGEL COUPLE
WERE MARRIED LAST WEEK**
Miss Laura Hackbarth and Wil-
liam Scholten, both very well known
young people of the town of Sigel,
were united in marriage at St.
John's Lutheran church in Sigel
last Wednesday morning at eleven
o'clock, Rev. Gieselman of that
church performing the ceremony.
The bride was attended by Miss
Louise Hackbarth, as bridesmaid,
while John Scholten was the best
man. The bride made a very at-
tractive appearance in white satin
carrying a shower bouquet of white
roses. The bridesmaid was very
pretty in pale blue tulle.
Following the ceremony the wed-
ding party gathered at the home of
the bride's parents, where a wedding
dinner and supper were served to
many of the friends and relatives of
the young people, who had assem-
bled in honor of the occasion. The
home had been very attractively de-
corated in pink and white roses and
peonies, set in a background of green
follage, making it a perfect bower
of flowers.
Mrs. Scholten is the daughter of
Mr. and Mrs. Herman Hackbarth and
is one of the well known and popu-
lar young ladies of Sigel. She has
been living in that town with her
parents for a number of years and
has made a number of friends there
as well as in this city. The groom is
one of the county's progressive young
farmers who served the colors dur-
ing the war and has returned to
civilian life on the farm. Mr. Schol-
ten is the son of Mr. and Mrs. J. H.
Scholten and is an industrious young
man with every respect for a brilliant
future. He was honorably dis-
charged from the service in March
after serving overseas.
The young couple will make their
home on a farm in the town of Sigel
and start their wedded life with the
best wishes of the Tribune and a host
of other friends.

**WOOD COUNTY BREEDERS
HELD SUCCESSFUL PICNIC**
The Marshfield Herald tells the
following of the picnic held by the
Wood County Breeders Association
last Thursday, when a number of the
stock raisers from this vicinity went
up in the northern end of the county
to enjoy the affair. The story says:
One of the most enjoyable picnics
yet held by the Wood County Breed-
ers Association took place Thurs-
day at the C. F. Schroeder farm on
the north city limits. About 200
people attended, nearly all of whom
came in their own cars. On the
lawn in the shade of wide spreading
maple trees, benches were provided
for all, who, in great numbers, en-
joyed the picnic. H. D. Griswald, of
West Salem, who spoke on better
stock and Fred Schwaboda, county
agent for Marathon county, who
delivered a most interesting dis-
course on the needs of cow testing
and the improvement of herds, by
better breeding. The balance of the
afternoon was given over to out door
sports in which old and young took
part. A feature race was a 50 yard
relay composed of six Holstein and
six Guernsey breeders to determine
the championship of the two breeds.
The Holstein breeders won. Follow-
ing this was a sack race which was
won by W. W. Clark and Wilmer
Droffinger; an old mens race in
which George Arians won first and
J. T. Graham second with A. Secor and
John E. Gadsdon taking third and
fourth places. Emma Knapton won
the woman's race and Jack Clark
the boys race. The days sports ended
with a ball game. It was a day of
great enjoyment and equal to the
best day at a county fair.

**MICHIGAN TO PLANT
ROADSIDE TREES**
The Michigan Legislature recently
passed a law to encourage the plant-
ing of trees along the trunk and other
producing shade trees along State
trunk highways and other roads
built in that state. The law makes
it the duty of the State Highway
Commission and the State Commis-
sion of Agriculture to look after the
setting out of such trees and of the
State Agricultural College and the
Public Dominion Commission to dis-
tribute stock at nominal cost to
local officials and private individuals
who will set it out. Trees are to
be planted at intervals of 20 to 40
feet along the roads. Injuring
roadside trees or adding notices of
any kind to them is made a misde-
meanor punishable by fine of \$1 to
\$25 and imprisonment of not more
than 30 days. This law is an keep-
ing with the policy of encouraging
tree planting announced by the Uni-
ted States Department of Agriculture
the department of the Federal Gov-
ernment that administers the Fed-
eral aid road law, in cooperation with
the states.
Before bees can be moved and bee
supplies can be resold, a state ento-
mologist will be required to issue a
permit or inspection certificate as a
result of a new bill signed by the
governor last week. There has been
a rapid spread of disease among bees
in the state and it is hoped this will
eliminate the disease. Wisconsin is
one of the leading honey producing
states of the union.
A man hasn't any sense. He would
rather have something eat on the
table than have the table doped up
with ferns, carnations and real
linen napkins.
They claim that a steady worker
would soon tire of loafing and that
there is many a weary plowman who
would like to make the experi-
ment.

Clothes To BE Proud Of

When your clothes are actually made for you there is never any feeling that you are handicapped. You know you have the best. A custom made suit such as we make for careful dressers will outwear two of the ordinary variety, and always retain that style and shape that comes from hand tailoring. It's more economical and better business for these reasons.

We make up a suit in any style you think is most becoming, and in one of our beautiful new patterns that are now all the rage. Pick your cloth from our fine selection, and we will make you up a suit that you will wear to the very end. We have a wide range of prices. Don't hesitate because of price. We have just what you want.

The fine hand work that goes into one of our suits or overcoats is what gives character to our clothes, and makes your friends admire your style and good taste.

RECEIVED APPOINTMENT

Stevens Point Journal—An unsolicited appointment as local physician and surgeon for the United States Federal Employees' Compensation commission has been received by Dr. Carl von Neupert, Jr., of Stevens Point. The commission dates from June 10, 1919.

Dr. von Neupert is charged with the medical, surgical and hospital treatment of employees of the United States government injured in the performance of duty. The federal law provides that physicians be designated to render such treatment in places and under conditions in which it is not practicable to have the treatment furnished by the regular United States medical officers. The term "employees of the United States government" is understood to embrace postoffice employees and railway mail clerks, so far as it is applied to them.

The policy of the federal commission is to do whatever possible to restore injured employees to the condition in which they were before injury. An allowance of 66 per cent of his regular salary is allowed each employee while incapacitated because of the injury suffered in performance of duty.

TROUT LAKE RESORT BURNED

Rhineland New North—According to Henry Dennis, who spent Sunday at his home here, lightning Saturday caused a fire which destroyed the main lodge and two or three cottages at Coon's resort at Trout Lake. With no means of fighting the fire the property was rapidly consumed. Mr. Dennis said that very little equipment was saved. The loss is estimated between \$10,000 and \$15,000. Coon's resort was one of the largest and most popular summer places in all the northern Wisconsin lake region. It was liberally patronized by tourists. It is believed that the resort will be rebuilt.

LOCAL GIRL MARRIED

MILLSTON YOUNG MAN

Miss Ethel Dillingham, this city, and Helmer Peterson, of Millston, Wis., were married last Tuesday morning at 8:30, at the Methodist church, Rev. Ludwig, of the congregation performing the ceremony.

The bride was attended by Misses Alice Shaw and Irene Whippner, as bridesmaid and maid of honor, while John Dillingham and F. B. Dillamer were the groomsmen. The bride was very prettily gowned in blue tulle, carrying a shower bouquet of roses. The bridesmaid wore tan and blue silk and carried bouquets of roses. Following the ceremony a wedding breakfast was served at the home of the bride's parents where a number of their friends had gathered in honor of the occasion.

Miss Dillingham is the daughter of Mr. and Mrs. George Dillingham of this city and is very well and favorably known among a wide circle of friends here. The groom is one of the progressive young men of Millston, who is employed in this city. The young couple will make their home in Grand Rapids after a short wedding tour and settle among their friends here with the best wishes of the Tribune for a long and happily wedded life.

FIND BODY IN HOLLOW LOG

Rhineland New North—Partly concealed in a hollow log the badly decomposed body of a man was discovered near Beaver Lake by a party of sportsmen from St. Louis. Although there was nothing by which the body could be identified it is believed to be that of Mike Gaynor, an aged woodman who disappeared about four months ago. Gaynor was a heavy drinker and it is probable that while under the influence of liquor he became lost in the woods and died from exposure. The corpse gave evidence of having been molested by animals, presumably wolves. Both legs and part of an arm were missing.

In a pocket of a ragged mackinaw was found two silver dollars and a Canadian penny.

INHERITANCE TAX RATE BILL KILLED

Senate Votes Down Measure
Which Triples Cost.

NEW SOLDIER BONUS BILL

Would Impose Tax of \$10 on All Men
Between Ages of 21 and 60 Who
Did Not Participate in the
World War.

Madison.—The Arnold bill, which
would triple the inheritance tax rates
in Wisconsin, has been killed by a
vote of 11 to 10, which means that
the inheritance tax rates will not be
distributed by the present session of
the legislature.

The original inheritance tax meas-
ure provided for a 900 per cent increase
of the present rates. Some time ago
Severson offered an amendment which
doubled the present rates. The Severson
amendment was adopted at that
time and became the bill. At the last
session Pons offered an amendment to
increase the present rates 50 per cent.
The Pons amendment was rejected by
a vote of 11 to 0. The Arnold inheri-
tance bill was indefinitely postponed by
a vote of 11 to 10.

A sixth soldier bonus bill appeared
in the senate when Senator George L.
Buck, Racine, offered a substitute
measure providing a tax levy of
\$10 each on every man between the
ages of twenty-one and sixty who did
not participate in the world war. The
bill provided for raising the balance of
the \$15,000,000 necessary by taxation.

The Buck bill, like other measures
on the subject, provides for payment
of \$10 for each month of service for
all Wisconsin men and women who
served in the war.

"A lot of people have told how patri-
otic they are and how much they wish
they could do something to help the
soldiers who did the actual fighting
and training. I am going to give these
people a chance," said Senator Buck.

The senate killed the Buck bill pro-
viding for payment of a commission
and making an appropriation for the
deduction of the state capital. It
advanced a new bill by Skogmo recog-
nizing Christian Science under the
workmen's compensation law on the
option of the employers. It concurred
in the E. E. Johnson bill increasing
the rate for the care of the inmates of
the home of the feeble-minded to \$4.25
a week.

The senate may be compelled to in-
stitute proceedings against senators
who willfully absent themselves from
the sessions. The senate was under a
"call" of the house and Senator J. Henry
Dennett refused to return. On motion
of Senator Jennings a committee has
been appointed to ascertain what pro-
ceedings could be brought against Sen-
ator Bennett or any other senator who
was willfully absent. Action will
probably be taken by the senate this
week.

By a vote of 40 to 28, the assembly
sent to third reading, after a hot de-
bate, the Bennett bill, which provides
that interurban street railways may
operate upon city streets without a
franchise by securing from the rail-
road commission an indeterminate per-
mit. By securing an indeterminate
permit the city loses all right and con-
trol over the interurban lines and there
are no limitations and restrictions over
such lines. "The granting of an in-
determinate permit is in effect a per-
petual franchise."

Assemblyman Knepp tried to kill the
bill and he was backed up by Assem-
blyman Knepp, who contended that
the passage would take away the
rights of the city over interurban com-
panies using the city streets. Assem-
blyman Otto, Buckley and Nolan fa-
vored the passage of the measure.

The assembly, by a vote of 29 to 44,
refused to kill the bill. Edmund
tentative to have the bill read over
at the next calendar day, but the
house refused and the measure was
sent to third reading by a vote of 40
to 28.

By a vote of 40 to 28 the assembly,
following an hour of discussion, killed
the Children primary election bill legi-
slating the holding of party conventions
and providing for election of delegates
to county and state conventions by the
use of the primary system.

Plan to Put Soldiers on Farms

A measure intended to make it easy
for soldiers to purchase land and giv-
ing them 40 years in which to repay
the state for the land has been en-
grossed in the lower house of the Wis-
consin legislature. The bill is authored
by Assemblyman Orrin Fletcher, La
Crosse. The measure carries a biennial
appropriation of \$1,000,000 with
which to purchase lands to put sol-
diers on farms in Wisconsin.

Under the terms of the bill the present
land settlement board is to admin-
ister the provisions of the law. In
order to aid and provide for the re-
turned soldiers and sailors who have
been honorably discharged, and as a
just and fitting reward in the manner
of pay, bonus or reward for their ser-
vices to the state and to the nation,
and to provide reasonable opportunity
for employment, the board may ac-
quire agricultural lands suitable for
colonization, together with any water
rights and rights of way, and convey
such land to discharged soldiers and
sailors and their dependents.

The land settlement board is given
authority to set aside certain areas of
land for town site purposes; the board
is directed to advertise in the news-
papers for lands; may sell the lands to
soldiers; may prepare all or any part
of land for drainage or cultivation;
may furnish the seeds, plants, fences
and erect buildings and other improve-
ments necessary. The board may also
make loans on the security of stock
and farm implements.

Every purchaser must be an actual
resident upon such land within six
months after date of his contract. The
contract of sale to soldiers shall pro-
vide that the purchase price of the
land shall be paid in amortization
plans over a period of 40 years and
bearing 6 per cent interest, computa-
tion as to payment being these used
by the federal land bank.

The bill provides that there is appro-
priated from the general fund to the
Wisconsin land settlement board on
July 1, 1910, \$500,000, and on July 1,
1920, \$500,000, for the purpose of car-
rying out the provisions of the pro-
posed measure.

Concurrence was given in the assem-
bly to the bill appropriating \$500,000
for care of the wounded, sick and con-
valescent soldiers, sailors and marines
from Wisconsin. The bill now goes to
the governor for his approval.

Adopts Gross Negligence Bill

The senate has adopted the third
amendment to the Severson gross neg-
ligence bill and has passed the meas-
ure. The third amendment applies the
rule of comparative negligence to all
accidents at railroad crossings. One
member said that it will be possible
to assess more damages than hereto-
fore against the railroad companies
for accidents. The present federal
law recognizes the rule of compara-
tive negligence as applied to inter-
state railway employees, and it is be-
lieved the proposed law will be sat-
isfactory.

Good Wages for Farm Hands

"Salaries of \$100 a month with
board, washing and gasoline for the
hired man's car are not uncommon
among Wisconsin farmers," said James
S. Miller of Madison, acting federal
director of the United States employ-
ment service. "There is no unemploy-
ment problem in this state," he de-
clared. "The bulk of farm labor is
placed at \$90 to as high as \$85 a
month." The two main problems, se-
curing work for discharged service
men and for bartenders seeking dif-
ferent occupation, are being easily
met, according to Mr. Miller.

New "Blue Sky" Law Proposed

What may be Wisconsin's new "blue
sky" law, to protect the investors of
the state from unscrupulous and too
risky investments, was recommended
for passage in the form of a substitute
to the Coe bill along similar lines by
the judiciary committee of the assembly.
The substitute divides securities into
two classes, those of established and
reputable companies and those of new
and unproven schemes," said Mr. Coe,
its author, in explaining the new bill.

Senate Passes Whey Butter Bill

The Olson whey butter bill was
amended to require a label reading
"Whey Cream Butter" and passed the
senate after several amendments and
substitute amendments were defeated.
The bill now goes to the assembly,
where the original Olson whey butter
bill, offered by Assemblyman Olson,
brother of the senator, was killed
early in the session. Dairy and Food
Commissioner George J. Weigle of-
fered no objection to the insertion of
the word cream in the label.

O. K. Planning and Statute Bills

The assembly passed the Coe bill
providing for a department of rural
planning within the state department
of agriculture. It concurred in the
Dennhart bill appropriating \$15,000
for the erection of a monument to
James D. Doty, the founder of Wis-
consin. The statue is to be erected at
Menasha, Doty's old home.

School Measure Introduced

A bill of considerable interest to
most cities of Wisconsin is that by
Eber Simpson, Oshkosh, which, after
passage in the assembly, under sus-
pension of rules, was placed on the
senate calendar. It gives boards of
education complete control over se-
lection of school sites defining of
school districts and authority to em-
ploy school janitors, and vesting
school principals with authority over
the care and maintenance of schools,
even to supervision over janitors.

To Halt Jewish Massacres

In the form of a substitute, Senator
Huber's resolution memorializing the
president and congress to take steps
to halt Jewish massacres in Europe
was adopted after Senator Huber had
defended its objects and his own mo-
tives in bringing this into the legis-
lature. This resolution in its original
form was passed by the senate, but was
later recalled from the assembly on
motion of Senator Pons, who alleged
that it was aimed at the Polish people
and that it represented German propa-
ganda.

Important to Papermakers

A discovery of nation-wide impor-
tance to the paper industries of the
United States and the users of paper
was announced at the forests products
laboratory at Madison when a state-
ment was issued that second-cut cot-
ton linters can be used in the manu-
facture of the highest grade of book
and other paper for commercial pur-
poses. The laboratory has demon-
strated that the linters can now be
cheaply utilized for the making of pa-
per. These linters have generally been
sold with the cotton seed.

One on the Judge

A certain judge could not control his
temper, and consequently could not
control other people. One day there
was unusual disorder in court, and at
last the judge could endure it no
longer.

"It is impossible to allow this per-
sistent contempt of court to go on,"
he exclaimed, "and I shall be forced
to go to the extreme length of taking
the one step that will stop it."

There was a long silence, then one
of the leading counsel rose and with
just a trace of a smile, inquired: "If
it please your honor, from what date
will your resignation take effect?"

The Usual Thing

"There does not seem to be much
fraternal spirit among your citizens,"
said the expected guest. "They ap-
pear to be almost at swords' points
with each other—backbiting, gossiping,
denouncing, and—"

Although Unpopular, "Thirteen" Has
Been Decidedly Mixed With This
Englishman's Life.

Superstitious readers will be inter-
ested in the following extraordinary
story, of which the hero is Mr. E. G.
Cordwell, the well-known and popular
Fleet street journalist.

Mr. Cordwell has been bitterly
dogged by the number thirteen. It
was on the 13th day of the month
that he attended, went to France, went
into action, got his first leave and re-
turned to take up his commission. It
was in the thirteenth year, in 13 lines,
13 camp that he had his first leg-
ion in France. The tent contained
13 men. He had 13 days in hospital.
He was given No. 13 pills. And, re-

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney
and bladder trouble and never suspect it.
Women's complaints often prove to be
nothing else but kidney trouble, or the
result of kidney or bladder disease.
If the kidneys are not in a healthy
condition, they may cause the other or-
gans to become diseased.

Pain in the back, headache, loss of ap-

be just the remedy needed to overcome
such conditions.

Crawfish Decide to Migrate

Passengers arriving in New Orleans
on a recent Sunday evening by the

the tracks were swarming with craw-
fish practically the whole distance be-
tween Michigan and Chef Menteur.
Hunters were walking along gather-

with squirming, wriggling, pinching
crawfish were brought in by stores of
persons. Expert fishermen said the
fish were crawling back to calm wa-
ters to escape the squalls outside.

The First Kipling Book

Few who are reading Mr. Kipling's
new volume of poems have seen a copy
of that precious item of Kiplingiana,
the first edition of "Departmental Di-
ties." It was, as its author says, "only
a sort of book"—a lean, alone docket,
wires stitched, bound in brown paper
and secured with red tape, in imitation
of an Indian government report. A
hundred copies or so were put togeth-
er by the poet himself and posted, to
imitation official envelopes, "up and
down the empire from Aden to Singa-
pore, from Quetta to Colombo." The
first issue contained only twenty-six
poems, but others were added to the
new edition rapidly called for, until
presently the book changed its format
and grew into a conventional stiff-backed,
gilt-topped volume. "But," says Mr.
Kipling, "I loved it best when it was a
little brown baby."—Manchester Guardian.

An Improved PIPELESS FURNACE

Different—Better

Many pipeless furnaces are offered; every furnace
maker has one to sell—but none are made with our
improvement, EXCEPT THE HESS.

This welded steel furnace warms the connecting rooms
all from one hot-and-cold-air register—the same as
other pipeless heaters—but it DOES MORE.

Every house has a detached room—a bath room—kitchen—
bedroom, not opening into the main rooms, and the ordinary
pipeless furnace does not reach that detached room.

The Hess Does It

When required, we divide our heating
chamber into two compartments, using
the smaller compartment for the de-
tached room. The heat is then regu-
lated and sent where it is wanted, thus overcoming the fault of the pipeless method.

There Are Many Other Valuable Features in the HESS FURNACES—Such as:
The WELDED and RIVETED steel radiator. Never leaks—every seam permanently welded,
as tight as a glass bottle.
The brick lined fire-box; retains heat for the combustion of gases—which means you can burn
ANYTHING, hard or soft coal, coke, slack, lignite, wood, etc.
The separate and open grate bars promote good combustion and economize in the use of fuel.
The simplicity of the heater reduces cost of installing and maintaining.
Any part of the heater, fire-box, grates, etc., can be readily removed or replaced, without taking
the heater apart.

We sell FROM FACTORY TO USER, at factory prices, for cash, Liberty Bonds or on monthly payments.

INHERITANCE TAX RATE BILL KILLED

Senate Votes Down Measure Which Triples Cost.

NEW SOLDIER BONUS BILL

Would Impose Tax of \$10 on All Men Between Ages of 21 and 60 Who Did Not Participate in the World War.

Madison.—The Arnold bill, which would triple the inheritance tax rates in Wisconsin, has been killed by a vote of 11 to 10, which means that the inheritance tax rates will not be disturbed by the present session of the legislature.

The original inheritance tax measure provided for a 300 per cent increase of the present rates. Some time ago Severson offered an amendment which doubled the present rates. The Severson amendment was adopted at the last session and became the bill. At the last session Foss offered an amendment to increase the present rates 50 per cent. The Foss amendment was rejected by a vote of 11 to 9. The Arnold inheritance bill was indefinitely postponed by a vote of 11 to 10.

A sixth soldier bonus bill appeared in the senate when Senator George L. Buck, Racine, offered a substitute measure providing for a tax levy of \$10 each on every man between the ages of twenty-one and sixty who did not participate in the world war. The bill provides for raising the balance of the \$15,000,000 necessary by taxation.

The Buck bill, like other measures on the subject, provides for payment of \$10 for each month of service for all Wisconsin men and women who served in the war.

"A lot of people have told how patriotic they are and how much they wish they could do something to help the soldiers who did the actual fighting and training. I am going to give these people a chance," said Senator Buck.

The senate killed the Burke bill providing for appointment of a commission and making an appropriation for the dedication of the state capitol. It advanced a new bill by Skogmo, under which a compensation law on the option of the employers. It concurred in the H. E. Johnson bill increasing the rate for the care of the inmates of the home of the feeble-minded to \$425 a week.

The senate may be compelled to institute proceedings against a person who willfully absents themselves from the senate. The senate was under a call of the house and Senator J. Henry Bennett refused to return. On motion of Senator Jennings a committee has been appointed to ascertain what proceedings could be brought against Senator Bennett or any other senator who was willfully absent. Action will probably be taken by the senate this week.

By a vote of 40 to 28, the assembly sent to third reading, after a hot debate, the Bennett bill, which provides that interurban street railways may operate upon city streets without a franchise by securing from the railroad commission an indefinite permit. By securing such an indefinite permit the city loses all right and control over the interurban lines and can place no limitations and restrictions over such lines. The granting of an indefinite permit is in effect a perpetual franchise.

Assemblyman Kanczy tried to kill the bill and he was backed up by Assemblyman Knappe, who contended that the passage would take away the right of the city over interurban companies using the city streets. Assemblyman Otto, Buckley and Nolan favored the passage of the measure.

The assembly, by a vote of 29 to 44, refused to kill the bill. Ehlman attempted to have the bill laid over until the next calendar day, but the house refused and the measure was sent to third reading by a vote of 46 to 28.

By a vote of 40 to 25 the assembly, following an hour of discussion, killed the Chilesen primary election bill legalizing the holding of party conventions and providing for election of delegates to county and state conventions by the use of the primary system.

The bill was supported by Assemblyman Chilesen and was opposed by Assemblyman Axel Johnson and G. H. Hood. No substitute was offered to the bill, as was suggested some days ago, and vote was taken upon the original measure.

The assembly concurred in the Edwards amendment to the Severson bill relating to the secrecy clause of the state income tax law. Edwards attempted to kill the bill. A roll call was demanded and the house refused to kill the bill by a vote of 38 to 29.

Conference Orderec on Market Bills.

The senate refused to recede from its position in favor of the Skogmo marketing commission bill, and so informed the assembly asking for a conference. Speaker Young named C. C. Coe, J. C. Hanson and A. L. Best as assembly conferees and Lieutenant Governor Dithmar named Senators Skogmo, Kuckuk and Bilgrien. A report to both houses, to include amendments to either the Skogmo or Coe bills, or a substitute amendment on which all factions can agree, is expected this week.

Plans Bounty for Soldiers.

Wisconsin may pay its soldiers bounties by a state tax. The senate of the legislature has objected to all former plans for soldiers' bounties and has approved a bill by Senator Huber to raise \$15,000,000 by direct tax in the next year to be paid to returned soldiers under supervision of a board composed of the governor, attorney general, adjutant and secretary of state. The bill provides that each soldier, sailor, marine and nurse shall receive \$10 per month for the period of service.

Vetoed Taychedah Measure.

Gov. E. L. Phillips vetoed a bill appropriating \$107,000 for additions to the industrial home for women at Taychedah. The governor stated that it looks as if the state was going out of its way to reward immorality. He touched upon a state policy of placing fallen women in a comfortable home surrounded by flowers, while the best state offers to the mother who has lived an honest life and who has labored hard and earnestly for her family is a poorhouse or home for the aged.

Plan to Put Soldiers on Farms.

A measure intended to make it easy for soldiers to purchase land and give them 40 acres in which they may engage in farming has been introduced in the lower house of the Wisconsin legislature. The bill is authored by Assemblyman Orrin Fletcher, La Crosse. The measure carries a biennial appropriation of \$1,000,000 with which to purchase lands to put soldiers on farms in Wisconsin.

Under the terms of the bill the present land settlements of the law. In order to aid and provide for the returned soldiers and sailors who have been honorably discharged, and as a just and fitting reward in the manner of pay, bonus or reward for their services to the state and to the nation, and to provide reasonable opportunity for employment, the board may acquire agricultural lands suitable for colonization, together with any water rights and rights of way and convey such lands to discharged soldiers and sailors and their dependents.

The land settlement board is given authority to set aside certain areas of land for town site purposes; the board is directed to advertise in the newspapers, for lands; may sell the lands to soldiers; may prepare all or any part of land for drainage or cultivation; may furnish the seeds, plants, fences and erect buildings and other improvements necessary. The board may also make loans on the security of stock and farm implements.

Every purchaser must be an actual resident upon such land within six months after date of his contract. The contract of sale to soldiers shall provide that the purchase price of the land shall be paid in amortization plans over a period of 40 years and bearing 5 per cent interest, computation as to payment being those used by the federal land bank.

The bill provides that there is appropriated from the general fund to the Wisconsin land settlement board on July 1, 1919, \$500,000, and on July 1, 1920, \$500,000, for the purpose of carrying out the provisions of the proposed measure.

Concurrence was given in the assembly to the bill appropriating \$500,000 for care of the wounded, sick and convalescent soldiers, sailors and marines from Wisconsin. The bill now goes to the governor for his approval.

Adopts Gross Negligence Bill.

The senate has adopted the Bird amendment to the Severson gross negligence bill and has passed the measure. The Bird amendment applies the rule of comparative negligence to all accidents at railroad crossings. One member said that it will be possible to assess more damages than heretofore against the railroad companies for accidents. The present federal five negligence as applied to interstate railway employees, and it is believed the proposed law will be satisfactory.

Good Wages for Farm Hands.

"Salaries of \$100 a month with board, room, washing and gasoline for the hired man's car are not uncommon among Wisconsin farmers," said James S. Miller of Madison, acting general director of the United States employment service. "There is no unemployment problem in this state," he declared. "The bulk of farm labor is placed at \$80 to as high as \$85 a month." The two main problems, securing work for discharged service men and for bartenders seeking different occupation, are being easily met, according to Mr. Miller.

New "Blue Sky" Law Proposed.

What may be Wisconsin's new "blue sky" law, to protect the investors of the state from unsound and too risky investments, was recommended for passage in the form of a substitute to the Coe bill along similar lines by the judiciary committee of the assembly.

"The substitute divides securities into two classes, those of established and earning propositions and those of unproven schemes," said Mr. Coe, its author, in explaining the new bill.

Senate Passes Whey Butter Bill.

The Olson whey butter bill was amended to require a label reading "Whey Cream Butter" and passed the senate after several amendments and substitute amendments were defeated. The bill now goes to the assembly, where the original Olson whey butter bill, offered by Assemblyman Olson, brother of the senator, was killed early in the session. Dairy and Food Commissioner George J. Weigle offered no objection to the insertion of the word cream in the label.

O. K. Planning and Statute Bills.

The assembly passed the Coe bill providing for a department of rural planning within the state department of agriculture. It concurred in the Denhart bill appropriating \$15,000 for the erection of a monument of James D. Doty, the founder of Wisconsin. The statue is to be erected at Menasha, Doty's old home.

School Measure Introduced.

A bill of considerable interest to most cities of Wisconsin is that by Elber Simpson, Oshkosh, which, after passage in the assembly, under suspension of rules, was placed on the senate calendar. It gives boards of education complete control over selection of school sites defining of school principals and authority to employ school janitors, and vesting school principals with authority over the care and maintenance of schools, even to supervision over janitors.

To Halt Jewish Massacres.

In the form of a substitute, Senator Huber's resolution memorializing the president and congress to take steps to halt Jewish massacres in Europe was adopted after Senator Huber had defended its objects and called vesting in bringing this into the legislature. This resolution in its original form once passed the senate, but was later recalled from the assembly on motion of Senator Foss, who alleged that it was aimed at the Polish people and that it represented German propaganda.

Important to Papermakers.

Discovery of nation-wide importance to the paper industries of the United States and the users of paper was announced at the forests products laboratory at Madison when a statement was issued that second-cut cotton linters can be used in the manufacture of the highest grades of book and other papers.

The laboratory has demonstrated that the linters can now be cheaply utilized for the making of paper. These linters have generally been sold with the cotton seed.

One on the Judge.

A certain judge could not control his temper, and consequently could not control other people. One day there was unusual disorder in court, and at last the judge could endure it no longer.

"It is impossible to allow this persistent contempt of court to go on," he exclaimed, "and I shall be forced to go to the extreme length of taking the one step that will stop it."

There was a long silence, then one of the leading counsel rose, and with just a trace of a smile, inquired: "If I please your honor, from what date will your resignation take effect?"

The Usual Thing.

"There does not seem to be much fraternal spirit among your citizens," said the spectacled guest. "They appear to be almost at swords' points with each other—backbiting, gossiping, denouncing, and—"

"Yes!" returned the landlord of the tavern at Wayoverbehind. "But that's all on the surface. Just wait till some stranger comes to town and gets into trouble, and you'll behold a united community jump onto him with both feet and in one voice."—Kansas City Star.

Blasted Hopes.

The Difference.

"How long have you been married?"

"Eighteen years."

"I presume—that time you've never had a quarrel?"

"Oh, yes, we've had lots of them. The only difference between us and other people is that we never take our quarrels very seriously."

The Way Around.

Mrs. Wakeup (Where did Mrs. de St. get her new hat?)

Mrs. Blase—That's a problem. She bought it with the money which her husband borrowed from her uncle, who had won it in a poker game from her brother, to whom she had loaned it shortly after her mother had taken it from her father's pockets and given it to her for a birthday present.—New York Globe.

Couldn't Read German Sign.

"No, I don't want any insurance? Didn't you see 'No Admittance' on the door?"

Agent—Sure I did! The Germans had "No Admittance" written in barbed wire and bullets outside their trenches, but we got in, just the same.—Life.

Eventually.

"I say, Fritz, I've found a diamond stickpin."

"Where is it?"

"For the time being over there in the scarf of the old gent with the monocle."—Luk, Berlin.

Fur Fashions.

"When did the custom of wearing summer furs originate?" asked the woman.

"I dunno," replied the man; "probably among the Eskimos."

Explained.

"How did she raise the money to go abroad to study music?"

"The neighbors raised a subscription, I believe."

Middle Aged Women

Are Here Told the Best Remedy for Their Troubles.

Freemont, O.—"I was passing through the critical period of life, being forty-four years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. GORDON, 925 Napoleon St., Fremont, Ohio.

NOT HIS UNLUCKY NUMBER

Although Unpopular, "Thirteen" Has Been Decidedly Mixed With This Englishman's Life.

Superstitious readers will be interested in the following extraordinary story, of which the hero is Mr. F. G. Cordwell, the well-known and popular Fleet street journalist.

Mr. Cordwell has been literally dogged by the number thirteen. It was on the 13th day of the month that he attended, went to France, went into action, got his first leave and returned to take up his commission. It was in the thirteenth tent, in 13 lines, 13 camp that he had his first flogging in France. The tent contained 13 men. He had 13 days in hospital. He was given No. 13 pills. And, returning to civil work on January 13, he found that his old room had been renumbered 113.

Now count up the coincidences. You will find 13 of them!—Answers, London.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. "Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased."

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Pain in the back, or large size bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Crawfish Decide to Migrate.

Passengers arriving in New Orleans on a recent Sunday evening by the Louisville & Nashville railroad said the tracks were swarming with crawfish practically the whole distance between Michoud and Chef Menteur. Hundreds were walking along gathering the seafood. Baskets, heavy with squirming, wriggling, pinching crawfish were brought in by scores of persons. Expert fishermen said the fish were crawling back to calm waters to escape the squalls outside.

Wait!

"Thwatt's that noise, Mrs. Mullaly?"

An Improved PIPELESS FURNACE

Different—Better

Many pipeless furnaces are offered; every furnace maker has one to sell—but none are made with our improvement, EXCEPT THE HESS.

This welded steel furnace warms the connecting rooms all from one hot-and-cold-air register—the same as other pipeless heaters—but it DOES MORE.

Every house has a detached room—a bath room—kitchen—bedroom, not opening into the main rooms, and the ordinary pipeless furnace does not reach that detached room.

The Hess Does It

When required, we divide our heating chamber into two compartments, using the smaller compartment for the detached room. The heat is then regulated and sent where it is wanted, thus overcoming the fault of the pipeless method.

There Are Many Other Valuable Features in the HESS FURNACES—Such as:

- The WELDED and RIVETED steel radiator. Never leaks—every seam permanently welded, as tight as a glass bottle.
- The brick lined fire-box; retains heat for the combustion of gases—which means you can burn ANYTHING, hard or soft coal, coke, slack, lignite, wood, etc.
- The separate and open grate bars promote good combustion and economize in the use of fuel.
- The simplicity of the heater reduces cost of installing and maintaining.
- Any part of the heater, fire-box, grates, etc., can be readily removed or replaced, without taking the heater apart.

We sell FROM FACTORY TO USER, at factory prices, for cash, Liberty Bonds or on monthly payments. Ask for our free 48 page illustrated hand book on furnace heating. It will give you a lot of valuable information.

SHERRY

On Monday evening, June 30th at the home of Mr. and Mrs. Harry Thomas there was a gathering of friends and neighbors to suitably celebrate the tenth wedding anniversary of Mr. and Mrs. O. Jernake. It was an ideal June evening when the parked automobiles showed how large a crowd the Royal Neighbors of America and their families could make. Everyone seemed to feel it was an especial occasion. Mr. and Mrs. Jernake have spent all their married life in our midst and having just returned from a honeymoon trip to Chicago we wanted to show them how glad we were that they came back to Sherry instead of remaining in Chicago. The bride was dressed in a beautiful blue-moss-line gown and the groom looked exceedingly well and as if he had been well taken care of in the past years. It was decided by the merry crowd to have the wedding over again. So everyone was ready to help carry it out. A beautiful veil, that had served some time as a window curtain, but was good enough for all that, was used with plenty of real flowers of which Mrs. Thomas had a such profusion and a good sized pillow upon which rested a good sized ring was born by Master Lloyd Lounberry. The girls strewed the way with flowers. The girls were Thelma Wiken, Gwendoline Gates, Leta Williams, Louella Wiken, Audrey Powell, Violet Crowder, the latter from Stevens Point. Mr. Romanza Parks was the best man and Miss McLaughlin maid of honor. With due ceremony the places were taken and Mr. Wm. Caldwell asked the usual questions and a gale of merriment prevailed. The bride threw her shower bouquet of Sprigles and was caught by the bridegroom to her great satisfaction. A little later in the evening a set of fruit halves was presented to the bride from the Royal Neighbor lodge, which she greatly appreciated and responded to the presentation in an appropriate speech. A punch of tea, cranberry, cake, cookies, litchies and lemonade were served to the young people and shortly after midnight we said farewell to our hosts and the bride and groom. No one would have dreamed that in a few short hours mulling and hay-making would be the main issue for the most of us.

The tearing down of the blacksmith shop and the old boarding house will perhaps mean the removal of an early landmark. Mr. Henry Whitney can tell many interesting things of the days it was filled with men who were employed in the pin works cutting them for the market. It was also headquarters for the other camps. Men came in for their mail and to hear from the outside world. Ludwig Woinfurther also lived here and in the creek his little son very nearly lost his life but was saved and is now out general housemaker and has three little folks of his own. Then it was the home of Fred Buckner for some years and it being so large his son and family lived in it and some of his grand children were born there. Then he vacated it for Mr. Wm. J. Agnew who started the Northwest Collegiate Institute and ten years it was swarmed with young people who will long remember it for it served as school rooms and girls' dormitory. In spite of many difficulties one of which was only two chimneys and thirteen stoves to draw through them there was many happy times in the old place and some who lived far distant now will feel sorry to know it is no more. It was beautiful for situation, near the bridge of the little creek of which no one could help but feel the charm of summer and in winter it was a never failing pleasure to the young folks. But we realize that all things must pass and give place to better things and so we have a little sigh and hope for the better thing.

On Saturday night last shower was given Miss Ida Davis at the home of Mr. and Mrs. Harry Thomas and a large crowd was present. Many beautiful and useful gifts were given. She is soon to be the bride of Raymond Thomas.

Miss Kate Minnette and Edgar Goike was married last Thursday, June 26th at the home of the bride at Auburndale by the Rev. Fred Jordan. They came to Sherry the same evening. At the groom's father's home was held a reception and neighbors and friends gathered to wish them a happy life. They will live in Sherry.

Laura Christopherson left on Monday for Mercer. Miss McLaughlin accompanied her to Marshfield.

C. E. Anderson and son, Charles Edward, left for Milwaukee in their car June 29th after a few days stay in the Sunnimer home.

Mrs. Cole is entertaining her niece Miss Irene Hart at the present time. Mrs. A. E. Billingson and her father, Mr. Smith took quite a trip recently including Rice Lake, Chippewa Falls, Eau Claire, Menominee and other points.

Mrs. Sarah Whitney has her daughter, Mrs. Bryson of Chicago with her at the present time. She came Saturday night.

Miss Charles Leroux was housewife to the Embroidery Club last Thursday afternoon. This is the first meeting since the war work became the all absorbing and it was felt it might well be revive it. A good sized crowd was present and a most enjoyable time for all was had. Mrs. Leroux served a delightful luncheon.

Word has been received here that a little son has been recently to Dr. and Mrs. K. H. Kiedrow in Chicago. Mrs. Kiedrow was formerly Miss Emma Sargis and spent five years at the Northwest Collegiate Institute, graduating last June.

The finest kind of hay weather and also very much like the kind we have for the Fourth of July which is almost here and we give thanks for peace and that our President will soon be home.

STATE MAY VOTE ON SOLDIER BONUS BILL

Gov. Philipp sent a special message to the lower house of the Wisconsin legislature yesterday which has pending before it the bill to raise upwards of \$15,000,000 to pay bonuses to soldiers, asking that the legislature submit to a vote of the people at a special election to be called Aug. 19, 1919. He says that the referendum vote and the action of the legislature will in no way interfere with placing the tax levy on the tax roll and will not operate to defer the time when the soldier may receive the bonus. He also suggests the incorporation of a provision in the bill by which state payments will not be made if the national government passes a bonus bill granting substantially the same amounts as that provided in the Wisconsin measure. This latter feature was in the original bill, but was stricken out on motion of Senator J. P. W. Lee. Grand Juror, Governor Philipp says that the tax levy proposed is probably the largest that was ever made in a state of two and one-half million people.

The message opens with an analysis of the provisions of the bill as it has passed the senate. He says that the income tax features of the measure would raise between \$5,000,000 and \$8,000,000 and that the mill tax features of three mills on every dollar of assessed valuation of property in the state will produce an additional \$15,000,000.

"It is a safe estimate to state that the systems combined will yield \$20,000,000," says Gov. Philipp in his message. "The money which this bill, if it becomes a law, will raise shall be used to pay a bonus to the soldiers, sailors, marines and nurses that served during the world war, the distribution to be made up on the following basis: To each and every person named there shall be paid a sum not exceeding \$10 for each month of service, with a minimum of \$50, as a token of appreciation of the character and spirit of their patriotic service, and so forth."

"No figures are available now which would with any accuracy show the total amount that the state must pay in compliance with the proposed statute. It is, however, estimated that the total amount of the tax levy would be used—in fact, there is a question whether it would be sufficient."

"This proposed tax levy is probably the largest that ever was made in a state of two and one-half million people, and in this connection I would remind you that we have already appropriated \$500,000 to care for the sick and needy soldiers, sailors and marines, and that another bill, which legislative circles are known as the 'Nye bill' is now on the way to the executive chamber, which if approved will cost large sums. It provides that every soldier, sailor, or marine who served during the world war may enter any of the normal schools or the state university and receive \$30 per month from the state during a period of four years, or the term through which he attends such school."

"Just how many soldiers will take advantage of that bill if it becomes a law is problematical. We know this, however, that a four year term will cost the state over \$1,000 per soldier. It seems to me that it is conservative to estimate that 10 per cent of the number enlisted will take advantage of this offer, particularly in view of the fact that the law permits adults to take special courses, which would mean that there is no age restriction. If the estimate of 10 per cent is correct it will require \$10,000,000 to carry through the provisions of the Nye bill. Therefore, the amount of money required to meet the obligations created by this session for the benefit of the soldiers will reach over \$20,000,000."

"While we all feel grateful to our soldier boys for their patriotic service, I feel that we should not appropriate those tremendous sums of money without consulting the people and I should say in this connection that the appropriation of \$500,000 to take care of the sick and needy has already been approved and is therefore a law."

"May I suggest that you deal with this senate bill which appropriates approximately \$20,000,000 as follows: 'That instead of either approving or rejecting the bill at this time, you pass a resolution with the following provisions: Refer the question of the tax levy which must be made to meet it this year to a vote of the people, to be voted upon at a special election to be called by the governor, through the secretary of state, on August 19, 1919. If the levy is approved by the people the act should request the governor to call a special session of the legislature immediately after the referendum vote is canvassed and counted for the purpose of enacting the necessary legislation to make the levy operative, the special session to be held only if the people by their vote approve of the tax levy."

"The referendum vote and the action of the legislature will in no way interfere with placing the tax levy upon the tax roll of 1919, and will, therefore, in no sense defer the time when the soldier may receive his bonus."

"It is currently reported that this national government is seriously considering a like proposition, and in the event that is substantially equivalent to the per capita amount herein provided and for the same general purpose, then there should be no further appropriation by the state, an idea which I have suggested that you pass should become law, provided such action is taken by congress prior to the time for calling a special session of the legislature."

BEELER SHOWS GOOD FORM; TRIMS CHICAGO GRAPPLER
Marshfield Herald.—Those who have been inclined to relate Beel to the "has been" class in the wrestling game had their eyes opened to a keener appreciation of the peerless one in his match Thursday afternoon with Bob Rogers of the pink condition. The contest, a main event of the Red Arrow celebration.

Under a threatening sky that spasmodically let go of a sprinkling of rain, the wrestlers went to the mat on the open air platform. At 4:15 As they shook hands Rogers towered above Beel and looked to have some twenty pounds or more better on the scales. After the preliminary tussling around for holds Beel got to working on top and put the visitor in several tight places, but each time he squirmed out only to fall back into the same hold—the bear and scissors. It was apparent Beel was in the pink of condition. He seemed to have his old strength and agility and looked like a good bet from the start. After twenty minutes Beel forced the big fellow to the mat and with the bear and scissors and gradually turned him shoulders down. The crowd went wild as the local man tugged for the decision. Then it came. Referee Emmorick tapped Beel on the back denoting a fall just as Rogers went into a coil and came close up to the ring did not see a clean pin fall and thought the referee had been a little hasty in calling the fall although it is doubtful if Rogers could have broken the hold or kept his shoulders from the ground much longer. The time of the fight was announced as twenty-five minutes and thirty seconds.

After a rest of ten minutes the wrestlers came on for the second bout. Both men were aggressive and worked hard but Beel's superiority was apparent. He blocked every move that Rogers made and at no time seemed in danger. Rogers broke away from several bad holds in the early stages of the round but Beel kept exuberantly at it and finally swung from a bar hold into a French arm and scissors. Rogers fought hard against it, but it was useless and at the end of the four minutes and thirty-four seconds his shoulders were squarely pinned to the mat.

HEALTH OFFICIALS EXPECT FUTURE NURSE SHORTAGE
The need of public health nurses, which was emphasized so strongly during the war and influenza epidemic has resulted in concerted action on the part of all health agencies to provide for future demands.

Through the recent action of the legislature in passing a law making it mandatory for every county in the state to employ either a registered graduate or public health nurse or train health instructor and the existing resources for training workers for these positions, Wisconsin has taken on an enviable position as leaders in the national campaign to improve health resources.

The fact that a large number of Wisconsin counties have voluntarily provided for trained health services since the new law making this action compulsory, is an expression of public opinion. Twenty-three of the seventy-one counties in the state now have public health workers and many more are contemplating compliance. Of the twenty-three counties, who have made provisions for health service, 11 are still seeking properly trained workers.

To Wisconsin also goes the honor of being the pioneer state to offer a course for public health instructors. This is a ten months' course and appeals especially to teachers and college women. The first class will graduate in June and a new class begins work in September. Wisconsin is one of the comparatively few states in the union in which a training course for public health nurses is conducted. It's four months' course given twice a year under the direction of the Wisconsin Anti-Tuberculosis Association, is one of the fourteen courses accepted by the American Red Cross as complying with its required standards.

The Better Way
"Casey?"
"Yes, Mike?"
"S'posin' I had fainted, and ye shoud beside me wld a pint of whiskey?"
"This isn't likely."
"But s'posin' it happened."
"Ye."
"Would ye press the bottle to me lips?"
"I would not."
"Ye are a heartless man, Casey."
"I am not that, I'd press the bottle to me own lips, and ye'd be on your face before I cud take the first swig."

Tuesday night the Rudolph Moravian Church held a love feast that was attended by a goodly number of people. This celebration was in honor of the liquidation of the debt resting on the church building and the near demise of John Barleycorn.

RAINS CAUSE FLOOD WHICH DESTROYS WILD ROSE DAM

Wild Rose Times.—Shortly after eight o'clock this morning a small break was discovered in the crest of the new part of the Rose Milling Co. dam here. Hurried efforts almost, but not quite, succeeded in stopping the tiny flow of water. Almost before the men at work could get out of the way, the small trickle became a raging flood. In fifteen minutes most of the new part of the dam and a large section of the west bank had been torn away and the pond was rapidly being drained away, more rapidly, in fact, than it was at the time of the flood in April.

The mill bridge on Main street was not damaged but the fill just north of it was partly washed away where the water flowed over it for twenty minutes to a depth of about four feet.

The electrician who went on duty at seven o'clock this morning states that the water in the pond was at a lower stage than usual at that time, and is unable to account for the sudden collapse of the dam unless it had been undermined by seepage or other wise. The question naturally arises whether the dam had been unimpaired with this at present seems doubtful. Anyhow apparent evidence has now been washed away.

Points below Wild Rose were warned by telephone and as we go to press no damage to other dams has been reported. Pres. E. H. Cagelin of the Milling Co. says that nothing will be done to reconstruct until matters now pending in contemplation of permanent repairs shall have been settled. The cost of making frequent repairs on the dam as now restricted is prohibitive, he states.

YOUNG BRIDE AND NIECE DROWNED IN BAU PLAINE
The Marshfield Herald tells of the following accident which occurred at Marsh Rapids, on the Eau Plaine river, near that city.

A double tragedy occurred at Marsh Rapids about 3 o'clock Wednesday afternoon when two young ladies, a Mrs. Svec of Chicago aged 20 years, and a Miss Svec, aged 14, daughter of Mr. and Mrs. John Svec, residing two miles south of the village, drowned in the Eau Plaine river.

It is reported that the two young people went to the river to bathe and not being acquainted with the conditions of the stream, which at this time is a turbulent current on account of the recent heavy rains, they walked into a deep hole where they were unable to combat against the raging torrent. The only witnesses to the tragedy were some little children who were playing along the river bank on the opposite side of the stream. They at once notified the villagers who hurried to the scene. Search was made and kept up during the night but the bodies were not recovered until the next day about 10 o'clock in the morning.

Mrs. Svec was a bride of only a few days, having been married at Chicago last Saturday. With her husband was at Marsh on their honeymoon visit to the groom's brother, John Svec.

NORTHERN COUNTY TOWNS VOTE FOR HIGH SCHOOLS
Word coming from Auburndale states that the towns voted for the opening of a union high school up there, the vote being about two to one in favor of the new institution. They already have a building that will be utilized for this purpose.

The matter of a union high school has aroused considerable interest throughout the county during the past few weeks, some of the citizens about the county that are quite calm on most any other subject, becoming quite excited over the proposition, the result being that in one community both sides were up in arms following an election at Vesper, where they turned the matter down, there was some question on how the other communities would feel about it, however, Arpin is another section that has backed up the Union high school. Up there they voted by a seven to one majority in favor of a \$20,000 appropriation for the erection of a building and will have their school in operation as soon as possible.

SIGEL FARMER PASSES AWAY
Peter Bohmsack, one of the well known farmers of the town of Sigel, passed away at his home there Sunday noon. Mr. Bohmsack was sixty-eight years of age at the time of his death and was one of the well known and respected residents of the community.

Peter Bohmsack was born in Germany in 1850, making his home during the early years of his life abroad. Later he moved to this country and has been farming out in the town of Sigel for a number of years past. He was well known and highly respected in his community and his death leaves a wide circle of friends to mourn the loss.

He is survived by his wife and six children, the children being: William of Milwaukee, Harry, of Fort Atkinson, and John, Ernest, Iva and Laura all of the town of Sigel.

The funeral services were held Wednesday afternoon at 1 o'clock from the house and 2 o'clock from the Lutheran church at Seneca Corners, burial taking place in the Seneca Corners cemetery.

WASHINGTON MARINE WEDS GRAND RAPIDS YOUNG LADY

Harriet Randall, of this city, and Ray C. Cook, of Yellum, Washington, were united in marriage at the home of Mrs. Ina B. Johnson, Eighth Ave. S., Tuesday evening at seven o'clock. Rev. Noel J. Breed of the Congregational church performing the ceremony.

The young couple were attended by Miss Eva Allen, of this city, as bridesmaid, while Frank McLean of Nekoosa was the groom's best man. The wedding was quite a military affair, the groom wearing the blue uniform of the U. S. Marine Corps, two gold chevrons on each sleeve indicating that he had served at least a year in France and received two wounds.

The groomsmen was attired in the olive drab of the army and was similarly adorned with gold chevrons denoting his service abroad in the 7th Division. The bride and bridesmaid were both very prettily gowned and the evening was a pleasant and attractive one.

Following the ceremony there was a wedding supper served at the home of the bride's mother, a few of the relatives and friends being the invited guests.

The bride is the daughter of Mrs. Ina B. Johnson of this city and is an estimable young lady with a host of friends in this community. The groom is a native of Washington, having enlisted from that state at the outbreak of the war. Later he served with the marines in the Second Division in France, where he was wounded twice after fighting on several fronts. The young couple will make their home in the west, leaving Grand Rapids with the best wishes of the Tribune and a host of friends here. Mr. and Mrs. Clyde Herrick of Nekoosa were among the out of town guests at the wedding.

M. L. Carey returned on Wednesday from a week's visit with friends at Stevens Point.
